## 4 o'clock chair

The 4 o'clock pm chair is designed for the private office and conference rooms. Its synchronized passive ergonomic mechanism adjusts to the user allowing comfort and full support in any position so you can stay focused and engaged on the meeting at hand.

The 4 o'Clock AM+ is for people who spend longer hours in their chair. It combines the elegance of a conference chair with a task-oriented active mechanism which provides a high degree of user adjustability for comfort and control.
