REFINED
EXECUTIVE

Chord

*The whole of science is nothing more than a
refinement of everyday thinking.*
_Albert Einstein

Chord provides elegant conferencing
and executive seating designed for comfort
and mobility.

UNCLUTTERED AESTHETIC

Clean lines and an uncluttered aesthetic make the Chord collection adaptable to almost any environment. Double-needle stitching outlines the simple yet elegant design. A striking accent welt flows across the back and down the arms and the elastic back boasts an ergonomic suspension system for support.

The optional back and seat pillow top wraps over the seat edge for added comfort.

Built-in passive ergonomic curvature of the back makes this design well-suited for long-term conferencing.

DETAILS

Chord is available in conference, mid-back and high-back versions. It comes standard with tilt swivel, tilt tension and pneumatic height adjustment. The tilt-locked knee tilt mechanism is optional. A five-star base is standard in black resin or optional in polished aluminum.

The plywood frame is assembled into a unibody structure interlocking finger joinery of ply tab construction.

The back features laminations of high-density polyurethane foam over an elastic sheet suspension for passive lumbar support. The seat is closed cell, contour molded urethane foam. Arms are standard in resilient back self-skinned urethane molded around carbon steel armature and are optional in polished aluminum with urethane arm caps.
