# FUNCTIONAL PERFORMANCE

---

## Runner

## RICH IN DETAILS

---

Meet the Runner table collection from Coalesse. Designed by Jeff Cronk, the Runner table line is a complete line; it is rich in details and versatile with multi-purpose functionality, that doesn't compromise appearance.

*Never neglect details. When everyone's mind is dulled or distracted the leader must be doubly vigilant.*  
\_Colin Powell

Every feature of Runner shows careful consideration and brings visual appeal, operational simplicity, and functional performance.

## CLASSROOM

---

Every table in the Runner family brings personality and versatility to multipurpose, training and conference rooms; seminar and classroom settings; and cafeteria and breakout areas.

The comprehensive design of Runner is not limited to the functional features. Details such as the gently curved foot lend grace, while the fluted v-notched groove in leg repeats in the edge-banding for added sophistication.

# DETAILS

The Runner collection offers a wide variety of tables, accessories and options including: non-folding edges in vinyl, laminate, wood and a variety of wood edge profiles; castors; removable and attached folding modesty panels; power; and ganging options in flex and bar styles. The non-folding table

tops have a solid core with options in laminate or wood veneers. Folding tables come with a lightweight honeycomb core with laminate. The Plug and Play tables offer table top access in grommet, sphere, miniport, interport, and interact options in black.
