TRAIN  
*IDEO, USA*

**Flip, nest, roll, link.**

The trend of integrating training spaces into corporate environments and the requirement for high-tech computer labs in higher education led to the development of the high-powered Train.

————— Train tables offer the ultimate high powered solution for training, computer lab, seminar, and multipurpose rooms. The raceway option provides distribution of both power and data plus ample wire management.

————— The modesty panel option provides basic wire management. All train tables nest and link easily using our patented coupling device.

*Train tables shown with Kart seating*

**PRODUCT SPECS**

*DETAILS*

**Product Features**

- Optional power: Miniport (A); Axil Z (B); Ellora (C)
- Color coded connectors (D)
