For Canadian Pricing

Canadian factor can be found at steelcase.com/CADpricing.

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ordering and Warranty

How to Order

Coalesse furniture is available through authorized dealers and retailers. Select products are available for order from our web site. The authorized dealer can help you with everything from surface material selection and order placement, to specialized services, such as space planning and design, delivery and installation. Best of all, they are part of your local community, providing expert advice with a thorough understanding of local needs. For more information and a listing of dealers and retailers, visit www.coalesse.com or call 1.800.627.6770.

Coalesse reserves the right to limit distribution of any or all models.

Credit, Prices, and Terms

Credit may be established upon acceptance of satisfactory references. For payment terms, contact Coalesse's Credit Department. Coalesse may cancel or change credit terms at its discretion and may request advance payment at any time.

The order confirmation will be deemed by the customer and by Coalesse, as the final expression of agreement and will be deemed the exclusive statement of terms. The order confirmation supersedes all prior writings and may not be modified or rescinded, except by a revised Coalesse order confirmation signed by the customer. No changes are binding on Coalesse until delivery of the order confirmation. Any storage charges and applicable sales taxes are in addition to the prices shown for merchandise. Inside delivery, uncartoning and installation are customer's responsibility unless separately quoted. All list pricing shown includes freight prepaid to one destination for delivery in the 48 contiguous United States. Hawaii and Alaska are not included. We reserve the right to increase prices without notice due to increases in labor and material costs. If timely payment is not made, customer is liable for reasonable collection costs, including attorney's fees.

Shipping and Storage

Coalesse reserves the right to select carrier and packaging method. Partial shipments may be delivered. Coalesse is not liable for delays or delivery failure due to strikes, lockouts, labor, or transportation difficulties, failure or delay of supply sources, accidents, fire, acts of God, or any other cause of like or unlike nature beyond Coalesse's control. Coalesse may transfer merchandise to storage if not accepted when shipment scheduled. Transfer and storage charges will be the customer's expense. Coalesse's invoice is payable upon transfer. If transfer is made prior to confirmed shipping date, storage expenses will be borne by customer.

Shipping charges MAY be calculated per order. Lead times vary by product. Coalesse reserves the right to select carrier. Partial shipments may be delivered. Coalesse will make every effort to provide current and accurate lead time information, however, Coalesse is not liable for delays or delivery failure due to strikes, lockouts, labor, or transportation difficulties, failure or delay of supply sources, accidents, fire, acts of God, or any other cause of like or unlike nature beyond Coalesse's control.

Freight is included on domestically manufactured products within the 48 contiguous states of the United States and standard freight service of Carl Hansen & Son and EMU.

Claims

Merchandise shipped from Coalesse is thoroughly inspected and properly packed before leaving the factory. Responsibility of its safe delivery is assumed by the carrier at the time of shipment. Customer must match the freight delivered with the bill of lading. Customer must examine packaging material upon delivery and note any damage on the carrier bill of lading. If there is damage to the packaging material, inspect the furniture immediately. If concealed damage is found, contact the carrier within 10 days of delivery date. Save all packaging materials until after inspection.

Freight damage and claims must be reported by the purchaser to the carrier. Coalesse is not responsible for freight claims. Claims for loss or damage must not be deducted from our invoice, nor payment withheld awaiting adjustment of such claims. Do not return any merchandise to Coalesse without a Return Authorization number. By following these procedures carefully, Coalesse guarantees our full support of your claims to protect you against loss or damages. All claims against Coalesse for defects, errors or shortages must be made by customer in writing within fifteen (15) days after delivery. Failure to make claims within fifteen (15) days constitutes acceptance of merchandise and waives claims. Cutting of textiles deems acceptance of yardage and waives all defects, errors, and shortages. Coalesse is not liable for subsequent damages.

Special/Custom Products

Coalesse prides itself on being responsive to our customer's needs. Contact our Customer Service team at 1.800.627.6770 to discuss a special opportunity. Due to product modifications and engineering time, special orders may not be cancelled. Charges will apply.

Ordering and Warranty

Order Cancellations/ Changes

All order change/cancellation requests must be submitted using the Coalesse order change/cancellation request form. Late changes could jeopardize the committed delivery of an order.

Coalesse Rapid10 programs no change or cancellations allowed.

Coalesse Products:

- No charges will be assessed for change or cancellation 14 or more calendar days prior to the manufacturing completion date (excludes holidays and/or large quantity project size orders). For import products, charges may apply.
- No manufacturing changes are allowed 0-13 calendar days prior to the manufacturing completion date. Simple changes including shipping address changes are subject to approval but will be accommodated when possible.
- No cancellations or product changes will be accepted for quick ship or special/custom product orders including special laminates. A cancellation fee will be applicable for any custom product and/or change may jeopardize lead time.
- If COM/COL has been received at time of change or cancellation, it is the dealer's responsibility to advise disposition or return of materials. Coalesse will not store materials after 30 days.

Additional Charges

• Changes or cancellations that involve any of the following may be subject to a charge earlier and/or greater than shown above: Special engineering product, CSM, pre-ordered components, materials with extended lead times (e.g., veneers, special paint, etc.) or large quantities of standard materials.

• Use our Order Change/Cancellation Request Form for all order changes. It is Coalesse responsibility to accurately process change order requests. It is the dealer's responsibility to verify that we have accurately interpreted your change requests by checking the acknowledgement after the change has been made. If you do not use the web-based change order form process and an error occurs during our translation which cannot be corrected prior to ship, all costs will be shared on a 50/50 basis. Changing ship dates or adding product to your order is subject to the availability of manufacturing capacity.

• Cartoning changes and shipping address changes are subject to approval and to a change charge. Please consult your Customer Service for specific information pertaining to your order.

Reserved Fabric Policy

Prior to order receipt, reserving textiles (COM/COL, Maharam, Designtex, and select Luna Select Surfaces) is the responsibility of the dealer. Coalesse cannot reserve textiles based on projected orders. Coalesse cannot guarantee Maharam or Designtex fabric availability. If dealer reserves Maharam or Designtex textiles, Coalesse will require the reserve number and zip code for locating purposes when ordering.

Schedule Enhancements

Coalesse will entertain schedule enhancements on a case-by-case basis; however, please understand that we must receive complete information such as installation date, opening date in order to make informed scheduling decisions.

No order move-ups or move-outs are allowed on any order that falls within the 15-working day period of its manufacturing completion date. If it is within the 15-working day period, Coalesse will invoice at shipment but may offer storage options at a charge for manufactured product.

Rapid 10

The Coalesse Rapid10 program provides a broad selection of our most popular seating, outdoor furniture, and tables with expedited manufacturing. To view and specify products that are included in the Coalesse Rapid10 program, please refer to the *Quick Ship Guide*. The comprehensive Coalesse offering in this program can easily provide a range of solutions for any setting. Coalesse Rapid10 is designed for clients whose needs require fast delivery of products. All products are made-to-order and ship in 10 business days.

Warranty

For warranty information, please go to <http://www.coalesse.com/warranty/>.

Sustainability

Sustainability

At Steelcase, we believe business can be a force for good. We create long-lasting products that are better for people and better for the planet. Our products and operations use life cycle thinking to meet our commitment to reducing climate change. This commitment is reinforced by practices such as designing to minimize global warming and other life cycle impacts, ensuring material health, and enabling end-of-use strategies.

To learn more at a corporate level, visit: www.steelcase.com/discover/steelcase/esg-overview/environmental/ Product Environmental Profiles, which provide key environmental attributes such as recycled content, embodied carbon and recyclability, as well as product certifications can be found by searching for Steelcase at Origin.build.

Ballet Collaborative and Conference Tables

Ballet tables form a versatile series that provides solutions in a variety of applications—conference, training, workplace, dining, and utility. Base configurations are available in folding and fixed versions.

Modesty panel has a horizontal wire management trough for a clean look.

Cast aluminum legs are available in folding or non-folding, X-bases.

Adjustable leveling glides are included for uneven floors.

Top is 1" thick laminate.

Dual wheel casters are 2" diameter and lock.

Seating Capacity Guidelines
► See page 546

Ballet Collaborative and Conference Tables

Product Details

Solid core tops with 3/4" and 1" nominal edge thickness have a particle board core (45 lb cu ft density) with High-Pressure Laminate on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate and backer are bonded to the core with a PVA adhesive.

Flip-top option is available on pedestal base tables only.

Flip-top mechanism is available on pedestal base tables 36"D or less. The flip-top mechanism allows tops to tilt for more compact storage of tables that are not in use. Safety latch secures the top in flat position and must be released to flip top up.

Tip: Flip-top tables are not meant to be used in configurations. Tops may not align.

Special table heights may be practical. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Folding is possible for select X-base tables to allow compact storage of tables that are not in use. X-base is 4" thick when folded. Folded height is 35/8".

Mobile storage cart stores and transports up to 5 folded Ballet tables from lengths of 48"-72" and widths up to 42". Folded height is 35/8".

X-base

Pedestal-base

Bases are available in two configurations—X-base and pedestal base. Base assemblies are constructed of die-cast and extruded aluminum. X-base assemblies are joined by 1" x 3" extruded aluminum stretcher bar for stability. Base finish can be any powder coat color.

10"-13"

Base inset on Ballet X-base tables is 10" on tables 60"L and 13" on tables longer than 60"L.

Table height is standard at 28 1/2"H.

Adjustable leveling glides are non-marring, black plastic.

Casters can replace glides on many Ballet tables factory installed. Casters are 2"-diameter, locking dual-wheel casters in black plastic and do not alter the table height.

Edges are black ribbed vinyl T-mold with matching plastic corner inserts.

Custom shapes and sizes
Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Cut-down tops, which are standard table tops with smaller dimensions, are available. Use the product number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Coalesse Customer Service at 972.641.2860.

Tip: Upcharge for a cut-down top is applied one time only per size/style number.

Tip: Fee is at list and contract discounts apply.

Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

Ballet Collaborative and Conference Tables

Connections

Connecting tops can link perpendicular tables at 90° and expand the useable area in many different configurations. ► See page 44

Modesty panel is available on many Ballet tables. Panel is ribbed extruded aluminum with powder coat color and includes a non-exposed horizontal wire management trough. ► See individual product specification pages for availability.

Gangers are available in one type—bar. Use bar gangers in applications where tables need to be rigidly linked for long periods of time. Threaded inserts for bar gangers are always factory installed. Bar gangers are field installed.

Bar gangers use steel bars to join adjacent tables. One end of the bar is captured by the host table and allows the bar to pivot beneath adjacent table where it is captured by a threaded post with knob. Factory-installed threaded insert in underside of table top accepts the threaded knob. No tools are required to link tables with bar gangers.

End-to-end

Side-to-side (Not available on tables with modesty panels.)

End-and-side (Not available on tables with modesty panels.)

Factory-installed bar ganger inserts are standard on all rectangular Ballet tables to allow tables to be joined end-to-end and/or side-to-side. Threaded inserts are available as an option on Ballet tables with vinyl or self edges. Specify universal ganging when you order your tables. You must also order the appropriate number of ganger packages separately. Order one package for each pair of table edges that are going to be joined.

Tip: Please send a drawing of your arrangement along with your order to ensure that gangers are properly installed.

Bar ganger package is available.

Bar Ganger Package	Style Number
Bar ganger for 1¼"-thick tops	793335

If your tables are going to be used in a configuration that requires ganging, please send us a drawing or sketch so that we can give you exactly what you want.

Wiring & Cabling

Vertical wire manager is available to clip on to Ballet table leg to conceal power cords and voice/data cables routed vertically from the floor to the worksurface. Vertical wire manager is black plastic. ► See page 45

Technology spider is a cable-management version of the traditional spider that is used to attach a table top to a column. The spider provides clearance for power cords and voice/data cables to pass through the table top so that Interport modules, grommets, and spheres can be positioned directly above a table base.

Grommets are available factory installed. Locations are listed in the table below (left, right, center).

Field installation available. To specify, order the grommet and the table as separate items.

Grommet has 2"-diameter opening. Dimensions given are from the center of opening and are accurate within ¼". Left, right, and center are from the user's perspective.

Ballet X-base grommets are available for field installation. To specify, order the grommet and the table as separate items. Custom locations are possible.

Spheres are available factory installed (left, right, center) as a special. Locations are listed in the table to the right.

Four simplex power outlets

Two simplex power outlets and two data jack locations

Four data jack locations

Field-installed sphere is practical on many table tops. Order unit separately and cut the required hole in the table top on site. Installation instructions will be shipped with the sphere.

Sphere has 3"-diameter opening. Dimensions given are from center of opening and are accurate within ¼" left, right, and center are from the user's perspective. Additional locations are possible. Contact Customer Service at 1.800.627.6770.

Ballet Collaborative and Conference Tables continued

Please send a drawing of your arrangement along with your order to ensure that grommets and spheres are properly installed.

Interport and Mini-Port are available factory cut in custom locations. This process requires engineering review and additional lead time may be required.
Tip: Send us a drawing indicating desired location(s). An additional charge may apply if the standard table design requires modification.

Interport and Mini-Port are also available for field installation. To specify, order the Interport or Mini-Port and the table as separate items.

Interact is available factory cut in custom locations. This process requires engineering review and additional lead time may be required.
Tip: Send us a drawing indicating desired location(s). An additional charge may apply if the standard table design requires modification.

Power strips are available as an accessory, ordered separately.

Surface Materials

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see below.

Grade 1 laminates include:

- Coalesse standard High-Pressure Laminates
- See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard High-Pressure Laminates (code 290A)
- See *Steelcase Surface Materials Reference Manual*.

- Any standard-grade Wilsonart High-Pressure Laminates in solid color, woodgrain, or pattern finish (code 290A)

Grade 2 laminates (code 290B) include any standard-grade, solid color, woodgrain, or patterned High-Pressure Laminates from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the *Coalesse Surface Materials Reference Guide*.

Swatch cards and actual samples of Coalesse standard laminates are available from your Coalesse Customer Service representative. For samples of High-Pressure Laminates from other manufacturers, contact them directly:
Wilsonart
1.800.433.3222
Nevamar
1.800.638.4380
Formica
1.800.FORMICA
Pionite
1.800.285.5161
Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.

Care & Maintenance

Laminate should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

Powder coat finishes on table bases should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

Polished aluminum finishes on table bases should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

Tables should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

Grommets for Standard Locations

Tip: The grommet will be shipped with the table so it can be installed on site in the factory-cut opening.

Tip: Custom locations are possible. Custom locations require an engineering review to confirm practicality. Please send a drawing to your Customer Service representative to show the locations you want, confirm practicality, and obtain a quotation.

Tip: Please send a drawing of your arrangement along with your order to ensure that grommets are properly installed.

Tip: Additional tables may be able to accommodate grommets. Ask your Customer Service representative at 1.800.627.6770 to help you determine practicality.

Standard Includes		Required to Specify

E-Table 2 Collaborative and Conference Tables

E-Table 2 tables seamlessly integrate unsurpassed technology access into an elegant conference table, by way of one-touch utility bays in the table top. The one-touch utility bay provides convenient, intuitive, and attractive connectivity to power and data outlets for portable computers, projectors, and speakerphones. E-Table 2 tables also have built-in vertical and horizontal wire management that meets the growing technological needs of the contemporary conference and meeting room.

Tops are 1/4" thick with particle board core, with either laminate or wood veneer surface. Parametric sizes are also available in 1" increments.

Drum base is molded MDF with either a laminate or wood veneer surface.

Utility bays available on all tables for easy access to power and data.

Bases are available in either laminate, veneer, or aluminum. All bases have cable routing capability.

Product Details

Working height table is standard at 29"H. Standing height table is standard at 40"H for aluminum bases only.

Adjustable leveling glides have a range of 1/2" to accommodate uneven floors.

Round

Racetrack

Faceted

Rectangular

Soft radiused end

Trapezoid

D-shape

Table shapes include round, racetrack, faceted, rectangular, soft radiused end, trapezoid, and D-Shape. A wide range of sizes up to 24'L is available to fit any room size.

Solid core tops with 1/4" nominal edge thickness have a particle board core (45 lb cu ft density) with High-Pressure Laminate or wood veneer on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate, wood veneer, and backer are bonded to the core with a PVA adhesive.

Flat

Convex

Vinyl edge profiles are available in the following shapes and colors on table tops that are 1/4" thick.

- Flat 1/4" edge
- See available edgeband finishes in *Coalesse Surface Materials Reference Guide*.
- Convex 1/4" edge available in 6000 Black, 6655 Warm White, 6607 Woodrose, 6609 Smoke. Parametric sizes allow for 6000 Black and 6609 Smoke only.

Tip: 3 mm vinyl edge profiles require a 4" radius on all corners.

3mm

Beveled

Bullnose

Knife

Waterfall

Faceted

Wood edges are available in six alternatives—beveled, bullnose, knife, waterfall, faceted, and 3 mm. Not every edge is available on every top shape. Parametric top shapes are available in four alternatives beveled, bullnose, knife, and 3 mm.

► Refer to the *Edge Availability* matrix.

Seating Capacity Guidelines

► See page 58.

E-Table 2 Collaborative and Conference Tables

Parametric Sizing

Non-Parametric Sizing

Large tops are shipped in sections with hardware for field assembly. Parametric tops 121"W through 240"W are manufactured and shipped in two equal pieces. Nonparametric tops 168" through 240" are manufactured and shipped in two equal pieces. Parametric tops 241"W through 288"W are manufactured and shipped in three pieces. Nonparametric tops 268" through 288" are manufactured and shipped in three pieces. On all 4 base tables, the two end pieces are equal to each other and will flex, whereas, the center piece will be one fixed dimension.

Sectioned Tops

Large tops can be difficult to move through some buildings.

Tip: Inspect the building where the table will be installed to confirm that elevators, loading docks, hallways, doorways, windows, etc., can accommodate large table tops. You can request any one-piece top to be fabricated and shipped in two pieces to accommodate these small spaces.

To specify sectioned tops, designate sectioned top option. For parametric tables the sectioned top option range is 96"W-120"W. For nonparametric tables, the sectioned top option range is 96"W-144"W.

Custom shapes and sizes

Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Parametric Sizing

Non-Parametric Sizing

Cut-down tops, which are standard table tops with smaller dimensions, are available. Use the style number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. Additional lead times may be required. Contact Customer Service at 1.800.627.6770. *Tip: Upcharge for a cut-down top is applied one time only per size/style number.*

Tip: Fee is at list and contract discounts apply.

Bases

Removable access door on each base allows for easy installation of utility infeeds. A knockout grommet in each access door allows infeeds through the door from a floor monument outside the base.

Bases are available in four styles—drum, laminate, veneer, and aluminum.

Drum base is molded MDF with either a laminate or a wood veneer surface. The removable access door, 8 1/8"W x 10 1/8"H, is secured with a reclosable fastener. The 24"-diameter drum base has a 12 1/2"-diameter opening in the bottom surrounded by a 60 lb concrete weight for stability.

24" End Support

24" Mid Support

30" End Support

30" Mid Support

Laminate base has a laminate surface on molded fiberboard. The removable access door, 6 5/16"W x 12 7/16"H, is secured with a reclosable fastener. Laminate bases are available in two sizes, 24"W and 30"W. Bases have glides adjustable up to 1/2" (providing a total floor clearance of 3/4").

24" End Support

24" Mid Support

30" End Support

30" Mid Support

Veneer base is hardwood veneer on MDF. Wood veneer surfaces are available in all Coalesse standard species and finishes. The removable access door, 6 5/16"W x 12 7/16"H, is secured with a reclosable fastener. Veneer bases are available in two sizes, 24"W and 30"W. Bases have glides adjustable up to 1/2" (providing a total floor clearance of 3/4").

30" End Support

36" Mid Support

36" End Support

Aluminum base is cast and extruded aluminum, painted with Coalesse powder coat in any color. The black removable access door, 6 13/32"W x 13"H, is secured with screws. Aluminum bases are available in two sizes, 30"W and 36"W. Bases have glides adjustable up to 1/2" (providing a total floor clearance of 3/4").

Cable routing is accommodated by hollow base interiors.

Style, size, and number of bases required are determined by table top shape and length. Round table tops have a single drum base. Table tops 6'L through 12'L have two bases. Table tops 14'L through 20'L have three bases. Table tops 22'L and 24'L have four bases.

All bases conceal flush floor monuments up to 6 3/4" in diameter.

Exception: The 30"W aluminum base fits over but does not completely conceal a flush floor monument.

► For dimensions to aid in locating floor monuments, see page 62.

E-Table 2 Collaborative and Conference Tables continued

Floor monument kit should be specified when above-the-floor monument is used or when a flush floor monument is not positioned under a base. Above-the-floor monuments may not fit inside a base. Oval conduit is 4 $\frac{1}{2}$ " x 2"H. The floor monument is 6 $\frac{1}{2}$ "L x 7 $\frac{1}{2}$ "W x 3 $\frac{3}{8}$ "H. ▶ See page 331.

Utility bay is made of formed steel, painted gray, and houses power and data outlets. Overall, utility bay is 19 $\frac{5}{8}$ "L x 7 $\frac{1}{2}$ "W. Door opening is 16 $\frac{1}{2}$ "L x 5 $\frac{1}{8}$ "W.

From one to seven utility bays can be specified depending on the table size. Utility bays are available as an option on all E-Table 2 tables.

Button-actuated doors made of polycarbonate and ABS enclose each utility bay. The doors are available in four colors: nickel mica, silver mica, charcoal mica, and matte black. Soft, compressible cushions of black sanoprene line the doors down the center, allowing cables up to $\frac{3}{8}$ " diameter to pass between the closed doors.

Utility bay interior is 8"W x 5 $\frac{15}{16}$ "D, providing ample room for cords.

Each utility bay has two duplex power outlets that are factory provided and installed at no additional charge. For an additional charge, two USB A ports are available in place of one duplex power outlet.

▶ See chart for duplex circuits, page 79.

▶ See chart for USB circuits, page 80.

Each utility bay has openings for two customer-supplied standard architectural faceplates. Voice/data faceplate opening has universal adapter with removable plates allowing single-gang size, 2"W x 4"H; double-gang size, 4"W x 4"H; or triple-gang size, 6"W x 4"H. Faceplates that provide network, telephone, and audio-visual outlets are available from various technology suppliers.

Beam assembly hangs from brackets attached to the bases and encloses all power and voice/data cables. Beam assembly consists of painted steel stretchers, side panels with a 1 $\frac{1}{2}$ "-diameter access grommet on each panel, and a 4 $\frac{1}{2}$ " wide raceway access door on the bottom of the raceway. Beams are 8 $\frac{1}{8}$ "W x 12 $\frac{1}{2}$ "H, with a capacity of 48 UTP cables.

Tip: Access grommet locations are determined by raceway length at the factory.

Wireway access door is placed in bottom of wireway. Flanges on top of door rest on side panel flanges.

Cut-down tops, which are standard table tops with smaller dimensions, are available. Use the style number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Customer Service at 1.800.627.6770.

Tip: Upcharge for a cut-down top is applied one time only per size/style number.

Tip: Fee is at list and contract discounts apply.

E-Table 2 Collaborative and Conference Tables

Laminate
Woodgrain Direction

Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top.

Woodgrain laminate sectioned tops cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections. Large tops that are more than 12' in length require two or more separate sheets of laminate. Coalesse will create the best match that is possible between two sheets of laminate, but depending on the woodgrain laminate pattern that you choose, a perfect match between sections cannot be guaranteed.

For sectioned 3- or 4-piece tops, it is not recommended to use woodgrain laminates, as the grain pattern of each section will not match.

Wood edges are not recommended on tables with wood-grain laminates because matching of woodgrain laminate and natural, solid wood is not guaranteed. For tables with wood edge profiles, always specify either laminates in solid colors or patterns or wood veneer surfaces.

Tip: Because of natural variations, you should know that finished solid wood edges may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.

Standard veneer grain directions—grain direction on E-Table 2 tops runs parallel to the width of the top regardless of the size of the table.

Grain runs parallel to the width on all tops.

Same flitch veneer is available as a special for tables that require similar graining and color, but will not be ganged. For example, specify same flitch veneer for two tables used in the same room, but spaced apart.

Same flitch matching is specified in cases where you want the veneer grain and pattern on two or more tops to come from the same flitch of veneer. This ensures a consistent grain pattern and coloration and should be specified when tops will be used near each other but not ganged.

U.L. listed, five-wire, 20-amp electrical system is available.

The standard wiring schematic is 3+0, providing three general use circuits. A two-circuit/separate neutrals electrical schematic may also be specified.

► For more details, see *Wiring Schematics*, to the right.

Single circuit plug, 20-amp, base power-in, 3+0 wiring schematic is available on tables with one, two, three, or four utility bays. This offers the quickest, easiest installation of tables. An electrician must provide a NEMA 5-20R outlet for each row within 18" of the infed location. The single circuit plug is U.L. recognized.

Connection to the building power supply is typically hard-wired. A licensed electrician must install the hardwire base power-in. The installation must be done according to all local and national codes.

New York City-approved hardwire base power-in is available (NYC Calendar #37297).

Chicago version of E-Table 2 replaces the modular electrical system with 4"-square single-sided, two-gang, steel junction boxes. To order, specify the option "with utility bay with Chicago wireway". An electrician supplies all other electrical components including wire, conduit, and duplex outlets.

E-Table 2 Collaborative and Conference Tables *continued*

For tables 157"L and longer, you must specify the entry location for the base power of either "end base" or "mid base" entry location.

Three-Circuit, 3+0.

Circuit Panel 1

In the three-circuit, 3+0 schematic, circuits 1, 2, and 3 are distributed from the first circuit panel and are supported with one shared neutral and one shared ground.

Single 3-Phase

Circuit Panel

On a single 3-phase circuit panel, all three circuits are distributed as shown.

Two-Circuit Separate Neutrals

Two circuits are each provided with their own neutral wire.

Circuit Panel 1

In the two-circuit, separate neutral schematic, circuits 1 and 2 are distributed from two different phases from the first circuit panel. Each circuit is supported with its own neutral and a common ground.

Surface Materials

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see Other laminates below.

Laminate Grades 1 and 2 are price groupings. Grade 2 costs slightly more.

See product specification pages for prices.

Grade 1 laminates include:

- Coalesse standard laminates

► See *Coalesse Surface Materials Reference Guide*.

- Steelcase standard laminates (code 290A)

See Steelcase Surface Materials Reference Manual.

- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

Grade 2 laminates (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770 with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard laminates are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

Wilsonart
1.800.433.3222
Nevamar
1.800.638.4380
Formica
1.800.FORMICA
Pionite
1.800.285.5161

Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.

Wood veneer table tops are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Veneer tops and solid wood edge profiles are stained, and then finished with Coalesse's primary wood finish clarity, a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains.

Wood is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.

Stains applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard wood veneers are available from your Coalesse Customer Service representative.

Stain-to-Match is available on this product and allows the matching of any wood finish with a one-time charge per finish.

► See *Coalesse Surface Materials Reference Guide* for details.

Table bases are available with polished aluminum or powder coat colors. Refer to the individual product specifying pages for availability. Powder coat colors are shown in the Coalesse Surface Materials Reference Guide.

Care & Maintenance

Laminate should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

Veneers should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish, use silicone-free household polishers. Use sparingly.

Tip: Never use ammonia-based cleaners or wax on wood surfaces.

Powder coat finishes on table bases should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

Polished aluminum finishes on table bases should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

Tables should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

E-Table 2 Collaborative and Conference Tables Power Duplex Wiring Schematics

Each Standard Utility Bay has two factory installed power duplex outlets at no additional charge.

3+0 Wiring Schematic

For the Standard 3+0 Schematic, outlets will be standardized as follows:

For tables with one, two, three, or four utility bays, each bay will have two Circuit 1 duplex outlets.

For tables with six utility bays, the first three bays will each have two Circuit 1 duplexes and the last three bays will each have two Circuit 2 duplexes.

For tables with seven utility bays, the first two bays will each have two Circuit 1 duplexes, the three middle bays will each have two Circuit 2 duplexes, and the last two bays will each have two Circuit 3 duplexes.

1+1 Separate Neutrals Wiring Schematic

For the 1+1 Separate Neutrals Wiring Schematic, outlets will be standardized as follows:

For tables with one, two, three, four, or six utility bays, each bay will have one Circuit 1 duplex and one Circuit 2 duplex.

For tables with six utility bays, the first three bays will have two Circuit 1 duplex outlets. The last three will have two Circuit 2 duplex outlets.

For tables with seven utility bays, the 1+1 separate neutrals wiring schematic is not available.

E-Table 2 Collaborative and Conference Tables

USB Wiring Schematics

Each Standard Utility Bay has two factory installed power duplex outlets at no additional charge. For an additional charge, one duplex power outlet can be replaced with two USB A ports on each bay.

3+0 USB Wiring Schematic

For the standard 3+0 schematic with USB, outlets will be standardized as follows:

For tables with one, two, three, or four utility bays, each bay will have one Circuit 1 duplex and two Circuit 1 USB ports.

For tables with six utility bays, the first three bays will each have one Circuit 1 duplex and two Circuit 1 USB ports. The last three bays will each have one Circuit 2 duplex and two Circuit 2 USB ports.

For tables with seven utility bays, the first and second utility bay will each have one Circuit 1 duplex and two Circuit 1 USB ports. The three middle utility bays will each have one Circuit 2 duplex and two Circuit 2 USB ports. The last two utility bays will each have one Circuit 3 duplex and two Circuit 3 USB ports.

1+1 USB Separate Neutrals Wiring Schematic

For the 1+1 separate neutrals wiring schematic with USB, outlets will be standardized as follows:

For tables with one, two, three, four, or six utility bays, each bay will have one Circuit 1 duplex and two Circuit 2 USB ports.

For tables with seven utility bays, the 1+1 separate neutrals wiring schematic is not available.

E-Table 2 Collaborative and Conference Tables

Round Laminate Base Tables

Tip: Shipped knocked down.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the “flat” edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric diameter in 1" increments ranging from 42"–60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Base: black laminate on MDF core
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

E-Table 2 Collaborative and Conference Tables

E-Table 2 Collaborative and Conference Tables

Racetrack Aluminum Base Tables-Working Height

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-288"
 - For tables with widths up to 144", parametric depth is in 1" increments ranging from 36"-60".
 - For tables with widths from 145"-288", parametric depth is in 1" increments ranging from 43"-60".
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

Racetrack Aluminum Base Tables-Standing Height

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-120"
 - parametric depth in 1" increments ranging from 36"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 40"

Conference Tables

E-Table 2 Collaborative and Conference Tables

Racetrack Veneer Base Tables

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 96"-288"
 - parametric depth in 1" increments ranging from 48"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: grade 01 or grade 02 veneer on MDF core
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic

E-Table 2
Collaborative and
Conference Tables

E-Table 2 Collaborative and Conference Tables

Faceted Aluminum Base Tables-Working Height

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-288"
 - For tables with widths up to 144", parametric depth is in 1" increments ranging from 36"-60".
 - For tables with widths from 145"-288", parametric depth is in 1" increments ranging from 43"-60".
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

E-Table 2
Collaborative and
Conference Tables

E-Table 2 Collaborative and Conference Tables

Faceted Aluminum Base Tables-Standing Height

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-120"
 - parametric depth in 1" increments ranging from 36"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 40"

E-Table 2 Collaborative and Conference Tables

Faceted Aluminum Base Tables-Standing Height

E-Table 2 Collaborative and Conference Tables

Faceted Laminate Base Tables

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 96"-288"
 - parametric depth in 1" increments ranging from 48"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: black laminate on MDF core
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

Collaborative and
Conference Tables

E-Table 2 Collaborative and Conference Tables

Faceted Veneer Base Tables

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 96"-288"
 - parametric depth in 1" increments ranging from 48"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: grade 01 or grade 02 veneer on MDF core
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

E-Table 2
Collaborative and
Conference Tables

E-Table 2 Collaborative and Conference Tables

Rectangular Aluminum Base Tables-Working Height

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-288"
 - For tables with widths up to 144", parametric depth is in 1" increments ranging from 36"-60".
 - For tables with widths from 145"-288", parametric depth is in 1" increments ranging from 43"-60".
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

E-Table 2 Collaborative and Conference Tables

Rectangular Aluminum Base Tables-Working Height

E-Table 2 Collaborative and Conference Tables

Rectangular Aluminum Base Tables-Standing Height

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-120"
 - parametric depth in 1" increments ranging from 36"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 40"

E-Table 2
Collaborative and
Conference Tables

E-Table 2 Collaborative and Conference Tables

Rectangular Laminate Base Tables

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 96"-288"
 - parametric depth in 1" increments ranging from 48"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: black laminate on MDF core
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

E-Table 2
Collaborative and
Conference Tables

E-Table 2 Collaborative and Conference Tables

Rectangular Veneer Base Tables

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 96"-288"
 - parametric depth in 1" increments ranging from 48"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: grade 01 or grade 02 veneer on MDF core
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

E-Table 2
Collaborative and
Conference Tables

E-Table 2 Collaborative and Conference Tables

Soft Radiused Aluminum Base Tables-Working Height

Tip: Shipped knocked down.

Tip: Soft radiused tables are not available with beveled or knife wood edge.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-288"
 - For tables with widths up to 144", parametric depth is in 1" increments ranging from 36"-60".
 - For tables with widths from 145"-288", parametric depth is in 1" increments ranging from 43"-60".
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

E-Table 2 Collaborative and Conference Tables

Soft Radiused Aluminum Base Tables-Working Height

E-Table 2 Collaborative and Conference Tables

Soft Radiused Aluminum Base Tables-Standing Height

Tip: Shipped knocked down.

Tip: Soft radiused tables are not available with beveled or knife wood edge.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-120"
 - parametric depth in 1" increments ranging from 36"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 40"

E-Table 2 Collaborative and Conference Tables

Soft Radiused Aluminum Base Tables-Standing Height

E-Table 2 Collaborative and Conference Tables

Soft Radiused Laminate Base Tables

Tip: Shipped knocked down.

Tip: Soft radiused tables are not available with beveled or knife wood edge.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 96"-288"
 - parametric depth in 1" increments ranging from 48"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: black laminate on MDF core
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

E-Table 2 Collaborative and Conference Tables

Soft Radiused Laminate Base Tables

E-Table 2 Collaborative and Conference Tables

Soft Radiused Veneer Base Tables

Tip: Shipped knocked down.

Tip: Soft radiused tables are not available with beveled or knife wood edge.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 96"-288"
 - parametric depth in 1" increments ranging from 48"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: grade 01 or grade 02 veneer on MDF core
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

E-Table 2 Collaborative and Conference Tables

Soft Radiused Veneer Base Tables

E-Table 2 Collaborative and Conference Tables

Trapezoid Aluminum Base Tables-Working Height

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-240"
 - For tables with widths up to 240", parametric depth is in 1" increments ranging from 36"-48" for depth right and 48"-60" for depth left
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

Trapezoid Tables with Two Aluminum Bases - Working Height

Tip: Top ships in one piece.

Tip: For the specification of the depths, the "Depth Right" specification is the short end of the trapezoid table and the "Depth Left" specification is the long end of the trapezoid table.

Tip: For 60"W - 95"W tables, if you require your table top to be made into two pieces, this can be done as a special. Please contact Customer Service at 1.800.627.6770 to obtain a quote.

Tip: Tables are available parametrically in 1" increments.

E-Table 2
Collaborative and
Conference Tables

E-Table 2 Collaborative and Conference Tables

Trapezoid Aluminum Base Tables-Standing Height

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric depth in 1" increments ranging from 60"-120"
 - For tables with widths up to 120", parametric depth is in 1" increments ranging from 36"-48" for depth right and 48"-60" for depth left
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 40"

Conference Tables

E-Table 2 Collaborative and Conference Tables

Trapezoid Laminate Base Tables

E-Table 2 Collaborative and Conference Tables

Trapezoid Veneer Base Tables

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 96"-240"
 - For tables with widths up to 240", parametric depth is in 1" increments ranging from 36"-48" for depth right and 48"-60" for depth left
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: grade 01 or grade 02 veneer on MDF core
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

Trapezoid Veneer Base Tables

E-Table 2 Collaborative and Conference Tables

D-Shape Aluminum Base Tables-Working Height

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-120"
 - parametric depth in 1" increments ranging from 36"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

E-Table 2 Collaborative and Conference Tables

D-Shape Aluminum Base Tables-Working Height

E-Table 2 Collaborative and Conference Tables

D-Shape Aluminum Base Tables-Standing Height

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 60"-120"
 - parametric depth in 1" increments ranging from 36"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: cast and extruded aluminum with powder coat
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 40"

E-Table 2 Collaborative and Conference Tables

D-Shape Laminate Base Tables

Tip: Shipped knocked down.

Tip: Utility bay quantity offering by table width is available in the understanding section.

Tip: 3 mm vinyl edge profiles on tables require a 4" radius on all corners.

Tip: A flat, plastic edge can be specified on veneer tops by selecting the "flat" edge option. Flat edge is only available in 6000 Black on veneer tops.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Sectioned top option is a two piece top and is only available on tops 96"W-120"W.

Tip: When a wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

Standard Includes

- Top:
 - 1 1/4" particle board core with grade 1 laminate
 - parametric width in 1" increments ranging from 96"-120"
 - parametric depth in 1" increments ranging from 48"-60"
- Edge: 3 mm plastic edge, 3 mm wood edge, or convex vinyl edge
- Bases: black laminate on MDF core
- Wireway: painted steel side panels with powder coat and black plastic access door
- Concealed leveling glides: non-marring, black plastic
- Overall height: 29"

Host Collaborative and Conference Tables

Host is a suite of elegant furnishings for the multimedia, interactive conference room. Host's fully resolved design details speak to the need for refinement in aesthetic appeal, while every functional aspect of the table was designed to accommodate a breadth of user needs.

Tip: This product line is a collection and will be found in more than one location in this specification guide.

► See Collections, page 5

Round base is conical shaped plywood with wood veneer surface.

Top is 1¼" thick particle board with laminate or wood veneer top.

TAP trays, if selected, provide access to power, data, voice, audio, video, or any type of outlet required. Storage trays provide access to house equipment, such as, speaker phones.

Bases are available with either a flared or a slim base.

Host tables are 28½"H.

Product Details

Table height is standard at 28½"H.

Adjustable leveling glides have a range of ½" to accommodate uneven floors.

Round

Rectangular

Boat Shaped

Trapezoid

Table shapes include round, rectangular, boat shaped, and trapezoid. A wide range of sizes up to 20'L is available to fit any room size.

Flat

Bullnose

Beveled

Horizon

Tapered

Solid wood edges are available in five profiles—flat, bullnose, beveled, horizon, or tapered. Not every edge is available on every top shape. ► Refer to the matrix on page 334 for availability.

Tops with flat, bullnose and beveled wood edges will have square corners.

Seating Capacity Guidelines

► See page 339

Host Collaborative and Conference Tables

Tops with tapered and horizontal wood edges have 4" radius corners.

Sectioned tops

Large tops are shipped in sections with hardware for field assembly. Tops 8'L ship in one piece. Tops 10'L can ship in one or two pieces. Tops 12'L ship in two pieces. Tops 14'L, 16'L, 18'L and 20'L can ship in two or three pieces.

Tip: The style number indicates top sections.

► Refer to style number explanation, page 350.

Large tops can be difficult to move through some buildings.

Tip: Inspect the building where the table will be installed to confirm that elevators, loading docks, hallways, doorways, windows, etc. can accommodate large table tops.

Removable access door on each base allows for easy installation of utility infeeds. A toe hole allows infeeds from a floor monument outside the base.

Leveling glides on all bases adjust 1/2".

The toe hole on the slim base is 1"H x 5.25"W and the flared base toe hole is 1"H x 7.4"W.

Wood veneer bases are available in three styles—round, slim, and flared.

Round base is conical shaped plywood with a wood veneer surface, 26 1/2"-diameter bottom and 21 1/2"-diameter top. Underneath the round base is a 25"-diameter black painted wood inset, 3/4"H, with an opening. The 13 1/2"-diameter opening is surrounded by a 50 lb concrete weight for stability. The removable access door, 8 1/2"W at the bottom and 6.9"W at the top x 25 3/4"H, is secured with a ball catch fastener on each corner.

Tip: Round base only available on round tables.

Slim base has a wood veneer surface on molded MDF with aluminum universal bracket. The removable access door, 7"W x 23 1/2"H, is secured with a ball catch fastener on each corner. Slim bases are available in one size, 4" x 27".

Flared base has a wood veneer surface on molded MDF with aluminum universal bracket. The removable access door, 9"W x 23 1/2"H, is secured with a ball catch fastener on each corner. Flared bases are available in one size, 13" x 27".

Style and number of bases required are determined by top shape and length. Round table tops have a single round base. Table tops 8'L through 12'L have two bases: two slim, two flared or slim and flared. Table tops 14'L through 20'L have three bases: three slim, three flared or combination of slim and flared.

Floor monuments can fit inside round and flared bases. Slim bases can be placed over some flush floor monuments.

► For dimensions to aid in locating floor monuments, see page 343.

There is a mouse hole at the floor on the access door on the slim and flared bases to allow wires to exit. The slim base mouse hole is 1"H x 5.25"W and flared base mouse hole is 1"H x 7.4"W.

Host Collaborative and Conference Tables continued

Connectrac, a floor monument kit, should be specified when a floor monument is not positioned under a base. Connectrac is a ADA compliant raceway that can be installed underneath carpet tiles or broadloom to conceal wires and cables running from a floor monument to the Host base.

Features:

- Moisture-resistant MDF transition ramps that simply glue down with liquid nails or equivalent.
- Powder-coated aluminum top cap that snaps in place.
- 25% lower overall height of wireway from previous model with same cabling capacity.

► See page 396

Tip: For detailed information about Connectrac, go to www.connectrac.com.

Raceway interior, 3¹/₈"W x 3³/₄"H, provides ample room for wires and cable.

Raceway overall is 33³/₄"W x 7¹/₈"H.

Ramps, 5⁵/₈"H at the raceway connection, transition down to 1¹/₈"H.

Raceway and ramps overall is 33³/₄"W.

Dome interior, 5⁷/₈" diameter x 3"H, covers the floor monument. Dome opens allowing easy access to floor monument.

Solid core tops with 1¹/₄" nominal edge thickness have a particle board core (45 lb cu ft density) with High-Pressure Laminate or wood veneer on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate, wood veneer, and backer are bonded to the core with a PVA adhesive.

Large tops are shipped in sections with Tite-Joint fasteners for assembly on site. Table tops that are 12' and longer and table tops that are larger than 72" in diameter are always shipped in two pieces.

Large tops can be difficult to move through some buildings. *Tip: Inspect the building where the table will be installed to confirm that elevators, loading docks, hallways, doorways, windows, etc., can accommodate large table tops. You can request any one-piece top to be fabricated and shipped in two pieces to accommodate these small spaces.*

To specify sectioned tops, designate with sectioned top.

A two-piece top may be fabricated and shipped in three pieces, please contact Customer Service for a quotation, 1.800.627.6770.

Custom shapes and sizes

Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Cut-down tops, which are standard table tops with smaller dimensions, are available. Use the product number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Customer Service at 1.800.627.6770.

Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top.

Woodgrain laminate sectioned tops cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections. Large tops that are more than 12' in length require two or more separate sheets of laminate. Coalesse will create the best match that is possible between two sheets of laminate, but depending on the woodgrain laminate pattern that you choose, a perfect match between sections cannot be guaranteed.

For Sectioned 3- or 4-piece tops, it is not recommended to use woodgrain laminates, as the grain pattern of each section will not match.

Wood edges are not recommended on tables with woodgrain laminates because matching of woodgrain laminate and natural, solid wood is not guaranteed. For tables with wood edge profiles, always specify either laminates in solid colors or patterns or wood veneer surfaces.

Tip: Because of natural variations, you should know that finished solid wood edges may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.

Standard veneer grain directions—grain direction

on Host table tops runs parallel to the width of the top regardless of the size of the table.

Grain runs parallel to the width on all tops.

Host Collaborative and Conference Tables

Same flitch veneer is available as a special for tables that require similar graining and color, but will not be ganged. For example, specify same flitch veneer for two tables used in the same room, but spaced apart.

Same flitch matching is specified in cases where you want the veneer grain and pattern on two or more tops to come from the same flitch of veneer. This ensures a consistent grain pattern and coloration and should be specified when tops will be used near each other but not ganged.

TAP doors with veneer option are NOT grain matched, they are flitch matched to the table. The veneer doors will always match the finish of the table top. Veneer doors will be available on veneer tops only.

Surface Materials

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see *Other laminates* below.

Grade 1 laminates include:

- Coalesse standard laminates
- ▶ See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard laminates (code 290A)
- ▶ See *Steelcase Surface Materials Reference Manual*.

- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

Grade 2 laminates (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard laminates are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

- Wilsonart
1.800.433.3222
- Nevamar
1.800.638.4380
- Formica
1.800.FORMICA
- Pionite
1.800.285.5161

Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.

Wood veneer table tops are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Wood is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.

Additional wood veneer species are available. To confirm availability and to determine pricing, contact Customer Service at 1.800.627.6770.

Stains applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Stain-to-Match is available on this product and allows the matching of any wood finish with a one-time charge per finish.

▶ See *Coalesse Surface Materials Reference Guide* for details.

Care & Maintenance

Laminate should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

Veneers should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish, use silicone-free household polishers. Use sparingly.

Tip: Never use ammonia-based cleaners or wax on wood surfaces.

Tables should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

Host Collaborative and Conference Tables *continued*

Host Collaborative and Conference Tables

Tech Corridor

All Host tables except round shapes are equipped with a Tech Corridor.

Tech corridor runs under the length of the table between the table top and the universal base brackets. Tech corridor creates a space approximately 20¹⁵/₁₆" x 3" for cables, TAP tray(s), and optional equipment shelf(s).

Tech corridor assembly consists of satin anodized aluminum twin beams and ribbed satin anodized aluminum hinged tech doors that clip shut.

Beams, 1⁵/₈"W x 2³/₈"H, with black plastic end caps provide support to the table top. Beams have a rail feature that accommodates cable clips.

Tip: One cable clip is provided for each foot of table length.

Tech doors hinge from the beams and clip shut with door clips to conceal and support wires and cables. Tech doors are approximately 5³/₄"W.

Corridor shelf is available to hold routers, hubs, line drivers, scalers and other technical equipment. Corridor shelf hangs between the beams and provides 1.5 rack units of space, 2³/₄"H.

► See page 396

Two Beam Tables:

96"L, 10'L, 12'L

Place the two bases in their approximate final locations.

Tip: End bases will be centered 24" from the end of the table top.

Tip: In most cases base access doors should face inward.

Tip: Bases can be the same style or a combination of slim and flared.

Bases are located in the same position for any given table top, regardless of table shape.

Tech Corridor Assembly:

- Remove beam end caps.
- Slide long tech doors on to hinge of each beam.
- Slide short tech doors on to each end in the same hinge.

Place beam/tech doors assemblies facing each other on to the bases with the long doors between the bases and short doors outside the bases.

Push beam end caps in to the ends of the beams. Align the second predrilled hole from each end of the two beams with the holes in the bracket castings.

Start the Pan Head screws into each bracket casting. DO NOT tighten.

Tip: Pan Head screws remain above the beam to aid in table top alignment.

Level bases. Check the square alignment of the beams. Tighten Pan Head screws.

Four Beam Tables:

14'L, 16'L, 18'L, 20'L

Place and center the three bases where they should be in the room and assemble the Tech Corridor (See Tech Corridor Assembly in Two Beam Tables).

Tip: End bases will be centered 24" from the end of the table top.

Middle base is positioned in the center of the table top.

Rail clamp splices the two beams together at the center base.

Host Collaborative and Conference Tables continued

Align black rail clamps with predrilled holes in center base bracket casting. Position each clamp with the tab pointing downward, and the short side of the clamp facing inward.

Place beam/tech doors assemblies facing each on to the bases with the long doors between the bases and the short doors outside the end bases.

Slide a pair of beams on to each rail clamp. Push both beams against the tab at the bottom of the clamp, forming a 1/2" gap between the beams.

Tighten each black screw on each clamp to ensure the gap remains unchanged.

Check the square alignment of the beams. The clamped beams can pivot as needed to square the frame.

Align the second predrilled hole from each end of the two beams with the holes in the bracket castings.

Start the pan head screws into each bracket casting. **DO NOT** tighten.
Tip: Pan head screws remain above the beam to aid in table top alignment.

Level bases. Check the square alignment of the beams. Tighten pan head screws.

Table top opening for TAP is 12" x 10", trimmed with a flat solid wood profile. Two doors conceal dual access to a black powder coated steel tray that houses power and data outlets.

Tip: Wood trim will match the color of the wood edge.

Up to six TAPs can be specified depending on the table length. TAPs are available as an option on all Host Collection tables.

► See individual product specifying pages for TAP locations.

Tip: A storage tray may replace one TAP.

► See page 342

TAP doors are made of brushed anodized aluminum. Each TAP door has an opening that allows cables to pass when the doors are closed. TAP doors are friction hinged, opening to 77°. TAP doors are fully adjustable to maintain an even appearance with the table top when closed.

TAP doors can be silver or black anodized or with optional wood veneer.

TAP doors with veneer option are NOT grain matched, they are flitch matched to the table. The veneer doors will always match the finish of the table top. Veneer doors will be available on veneer tops only.

All doors must be the same finish—silver, black or veneer.

TAP Door Adjustments

CAUTION: TAP DOORS CAN BE EASILY SCRATCHED WITH HEX KEYS. MAKE SURE BOTH DOORS ARE FULLY OPEN BEFORE MAKING ADJUSTMENTS.

Host Collaborative and Conference Tables

Adjust the pitch first, then adjust the height.

Adjust the pitch of each door to be level with the table surface by adjusting the Allen screw found under each door.

Adjust the height of the left and right sides of the TAP door assembly to be flush with the table surface by adjusting the Allen screws on top between the doors. There is an adjustment screw at each end of the TAP assembly. Doors must be fully open to adjust screws.

TAP trays provide access to power, data, voice, audio, video, or any type of outlet required. Each TAP tray includes a storage area for laptop computer transformers, excess wires, or other accessories. A 1 1/2"-diameter rubber grommet located in each half of the TAP tray allows cables to enter directly into the tray from the tech corridor (such as a PolyVision Multipurpose Cable). The bottom cover of the TAP tray is easily removable without tools for technician's access.

Host Collaborative and Conference Tables *continued*

TAP Tray Electrical Systems

Four choices:

Tip: All TAP trays (except field-wired) have four 15-amp power outlets.

Tip: All TAP trays are U.L. and C.U.L. listed.

Cord and plug tray will have a 10' cord and 15-amp plug. Each TAP tray must be plugged into a floor outlet. This TAP tray cannot be daisy-chained.

Hardwired tray will have a 6' conduit and a three-wire hardwire connection.

Tip: Hardwired TAP tray must be connected to the building power supply by a licensed electrician.

Field-wired tray will have two single-gang faceplate openings for customer's own power outlets and wiring.

Modular tray will have a modular harness that "daisy-chains" from one TAP to the next. A two-circuit, four-wire hardwire base power infeed is included.

Tip: Modular TAP tray is a two-circuit system. Modular TAPs will alternate circuits within a table.

Tip: Lengths of the modular hardwire base power infeed will vary by table size and configuration but will be able to always reach floor monuments located anywhere underneath the table.

Tip: Power infeeds can be routed down any table base.

Corridor power kit, modular can be added only to modular trays. This kit adds two electrical outlets inside the tech corridor for plugging in speaker phones or other equipment that does not require frequent access.

► See page 396

Tip: A six outlet plug strip with 15' cord and plug can also be installed in the tech corridor.

Host Collaborative and Conference Tables

TAP Tray Faceplates

Architectural Adapter Plate (AAP) choices:

Tip: TAP trays utilize Extron Electronics' Architectural Adapter Plates (AAPs).

Tip: Each TAP tray can accommodate up to eight single-space AAPs.

AAPs provide access to data, audio, video, telephone, microphone, room control systems and other technologies inside TAPs. Data AAPs and Video/Audio AAPs are available with Host TAPs. Many other AAPs are available from Extron Electronics. For information on other styles of AAPs and to find an Extron Electronics dealer, call Extron at 800.633.9876 or online at www.extron.com.

Data Architectural Adapter Plate has two CAT 5e RJ45 barrel (pass-through) outlets. It receives 2 plug-in at both ends of the barrel. Cat 5, 5e, and 6 will work with this coupler. The couplers must be 8-conductor type plug-ins on both ends.

Video/Audio Architectural Adapter Plate has one VGA outlet (HD15 female to female gender changer) and one audio outlet (3½ mm stereo mini jack to solder tabs).

Modular System TAP Trays Installation

Optional Modular Installation

If **optional modular electrical system** is specified, bring wiring up through base from floor monument or base access door into Tech Corridor. A hardwire infeed is used for the modular electrical systems. For single TAP styles, the modular infeed is not needed. Specify the hardwired tray option. Connect electrical cables and secure with cable clips. Run data wires along opposite beam and secure with cable clips as required.

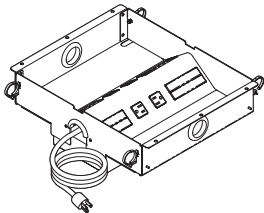

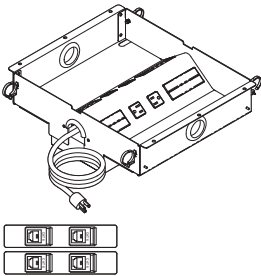

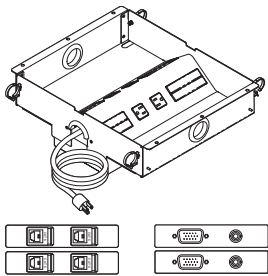

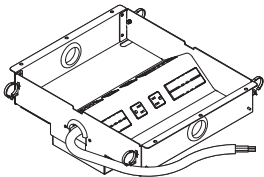

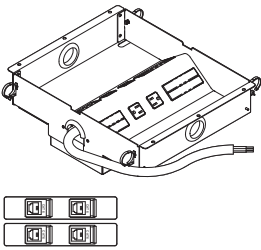

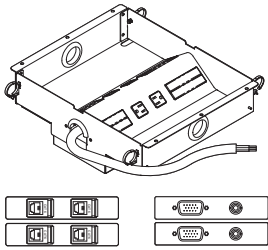

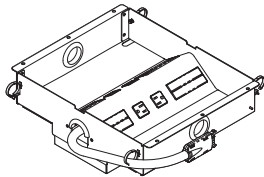

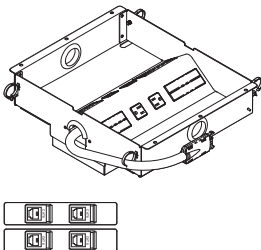

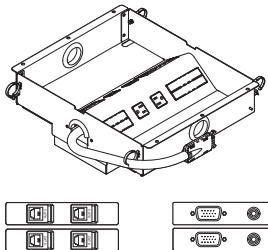

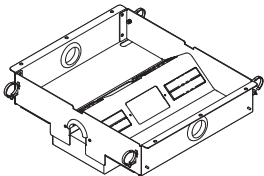

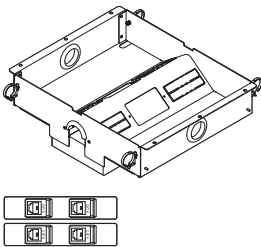

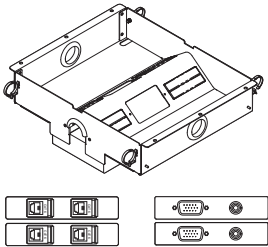

Note: A licensed electrician must connect the power infeed(s) to the building power source in accordance with all national and local electrical codes. These electrical assemblies are intended for installation in accessible, dry locations in accordance with Article 604 of the National Electric Code NFPA70. If you have any concerns about a specific application, please consult the local authority having jurisdiction. This system is rated for a maximum of 20 amps, 125/250 V, 1-Phase, 60Hz or 120/208 V, 3-Phase, 60Hz.

Host Collaborative and Conference Tables Storage Tray

Storage Tray

Call Customer Service for availability,
1.800.627.6770

Table top opening for storage tray is 12" x 10", trimmed with a flat solid wood profile. Two doors conceal access to a black powder coated steel tray that can house equipment, such as most common speaker phones. The inside dimensions for the storage tray are 15⁷/₈" x 13³/₄" x 2¹/₁₆".

Tip: Wood trim will match the color of the wood edge.

Only one storage tray can be specified for each table. Storage tray, if chosen, will replace one TAP on the table. If the specified table has multiple TAPs, any one of the TAPs can be replaced with a storage tray. The location of the storage tray can be determined in the field.

► See individual product specifying pages for TAP locations.

Storage tray doors are made of brushed anodized aluminum. storage tray doors are friction hinged, opening to 90°. Storage tray doors are fully adjustable to maintain an even appearance with the table top when closed.

Storage tray doors can be silver or black anodized or with optional wood veneer.

Storage tray doors with veneer options are NOT grain matched, they are flitch matched to the table. The veneer doors will always match the finish of the table top. Veneer doors will be available on veneer tops only. Veneer doors will always be cross grain.

If storage tray is specified with TAP(s), the finish on the doors will match—silver, black or veneer.

Lagunitas Tables

DESIGN TOAN NGUYEN

The Lagunitas lounge system offers a wide range of highly customizable settings, bringing a new level of versatility to all the ways we work. Lagunitas adapts to changing work styles and shifting postures. Lagunitas utilizes a full range of design expressions with benches, lounge pieces, and tables. Work, occasional, and personal tables are curated to work specifically with Lagunitas lounges and benches. Integrated power options for the lounges, benches, and tables are available. Lagunitas supports existing and emerging work activities in an endless number of social, collaborative, and personal settings.

Tip: This product line is part of a collection and will be found in multiple locations in this specification guide

► See Collections, page 5.

Tables are offered in three types; work, occasional, and personal tables. 26"H table dimensions are curated to work with the lounge pieces for optimal compatibility. 28½"H work tables are compatible with standard height seating.

Table bases and columns are standard in powder coat paint.

Work and occasional table tops are standard in High-Pressure Laminate with a 3 mm plastic edge or wood veneer with a 3 mm matching edge profile.

Table glides are non-adjustable and are clear plastic.

Personal table tops are standard in High-Pressure Laminate with 3 mm plastic edge or Fusion fabric.

Lagunitas Tables

DESIGN TOAN NGUYEN

Product Details

Work tables are available in six differing sizes, ranging from 30"W to 72"W that coordinate with the lounge dimensions to create a variety of social, collaborative, and personal applications. The work tables are available in two heights: 26"H and 28½"H. The work tables are comprised of a single column rectangular base in powder coat paint and a rectangular table top in laminate with matching or complementing 3 mm flat edge band profile or wood veneer with matching 3 mm flat wood edge band.

Occasional tables are available in two sizes, 32"W and 48"W, that coordinate with the lounge, chaise, and bench dimensions. The occasional tables are comprised of a single column with rectangular base available in powder coat paint and a rectangular table top in laminate with matching or complementing 3 mm flat edge band profile or wood veneer with matching 3 mm flat wood edge band.

Personal table is available in one size. It can easily be moved to your desired location for short term laptop work or simply used to set your coffee. The personal table is comprised of a single column with rectangular base available in powder coat paint and a rectangular table top in laminate with matching or complementing 3 mm flat edge band profile or a Fusion fabric-wrapped surface.

26"H

28½"H

Work tables are available in two heights: 26"H tables are optimized to work with the lounge seat height, while 28½"H tables work with standard height seating.

16"H

Occasional tables are available in one optimized height, 16"H, to work with the lounge seat height.

All work and occasional tables have a rectangular metal base with a centered column. The 3" column includes a cone at the top that attaches to the work surface. There are five rectangular base dimensions:

- 16"D x 23⅝"W x ⅜"H for 18"D x 32"W, 24"D x 30"W, and 24"D x 36"W work tables;
- 16"D x 31⅝"W x ⅜"H for 18"D x 48"W occasional table;
- 21"D x 28½"W x ⅜"H for 36"D x 40"W and 36"D x 48"W work tables;
- 21"D x 35"W x ⅜"H for 36"D x 57"W x work table; and
- 21"D x 35"W x ½"H for 36"D x 72"W x work table

25"H

The personal table is available in one height, 25"H, to work with the lounge seat height.

The personal table has a rectangular metal base with the column centered at the back of the base. The 1¼" column includes a flat plate at the top that attaches to the underside of the top. The base plate dimension is 10¾"D x 15¾"W x ⅜"H.

Non-adjustable 3" diameter plastic glides are standard on all tables. Glides are ⅜" thick for the 36"D x 72"W table; ½" thick for all other work and occasional tables; and ¼" thick for the personal table. For all work and occasional tables the glide height is needed to route cords.

1⅛"

Tables are standard with a knife edge profile, that has the appearance of a ½" thick top that tapers to an overall top thickness of 1⅛".

High-Pressure Laminate tables are standard with a matching or complementing 3 mm flat edge band. Wood veneer tables are standard with a matching wood 3 mm flat edge band. The underside of the table top is finished in black.

Specials are possible with Lagunitas. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

A metal grommet is an option on all work and occasional tables. The 3" grommet is flush-mounted and located in the center of the table top over the cone and column. The metal grommet is available in anodized silver only.

Round power modules are available on the focus nook, and all work and occasional tables. On the focus nook worksurface, the power module is specifiable on the back right or left side. On the tables, the power module is located in the center of the table top over the cone/column. The 3" power module features tamper resistant power simplexes, an 8'L power cord with 15-amp plug, and is available in four colors.

The round power modules are available in three configurations:

- Two TR simplex receptacles
- One TR simplex receptacle and two USB A charging ports
- One TR simplex receptacle, one USB A charging port, and one USB C charging port

Tip: USB receptacles conveniently charge a range of electronic devices. Some devices may not be compatible.

Lagunitas Tables *continued*

DESIGN TOAN NGUYEN

PowerPod grommet and stop is an option on all work and occasional tables. The grommet is located in the center of the table top over the cone/column. The stop attaches to the column to help hold and route cords and cables through the column. The grommet and stop cap are available in black or milk.

The grommet allows for pass through of cords and cables at the desktop. The grommet is open to allow for the PowerPod to be housed over or stored on the table. The grommet inside dimension is 3 1/2" and outside dimension is 5 1/8".

PowerPod includes six 15 amp outlets with an energy saving illuminated on/off switch. It comes with a 6' cord with three prong plug. The top tray is milk and the power source is silver with a milk face. It is UL and CSA listed.

Tip: PowerPod is sold separately.

The contour of the PowerPod bottom cradle is designed to work in conjunction with the grommet for a snug fit or can be used independently without a grommet.

Work and occasional tables route cables and cords from the desktop through the column out through the base. Cords can be concealed in the cone.

Tip: A powerstrip cannot fit inside the cone.

Tip: If a desktop device is desired, other than the standard PowerPod or power module, consult Specials engineering for capability.

Surface Materials

Screen(s) and seat deck:

- Knit
- Fabric (contrasting and non-contrasting - contrasting must be same fabric family)

Seat and back cushion(s), contrasting and non-contrasting:

- Fabric
- Leather

Lounge attachment brackets and frame:

- Paint

Lounge glides:

- Non-specifiable plated metal

Lounge power and USB power modules (options):

- Black powder paint with black receptacles

Work and occasional table top surface:

- Laminated with matching or complementing 3 mm plastic edge band
- Wood veneer with matching 3 mm wood edge
- Custom wood finish (option)

Table base (cone or plate, column, and bottom plate):

- Paint

Table glides:

- Non-specifiable clear plastic

Metal grommet (option):

- Non-specifiable (anodized silver)

PowerPod grommet and stop cover (option):

- 6000 Black plastic
- 6052 Milk plastic

Table power modules:

- 4013 Silver/Black (silver powder paint with black receptacles)
- 4180 Graphite Matte
- 4242 Milk Matte
- 4710 Low Gloss Black

Personal table top surface:

- Laminate with matching or complementing 3 mm plastic edge band
- Fusion fabric

Tip: Refer to the Coalesse Surface Materials Reference Guide for additional surface materials information.

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see *Other laminates* below.

Grade 1 laminates include:

- Coalesse standard laminates
- See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard laminates (code 290A)
- See *Steelcase Surface Materials Reference Manual*.
- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

Grade 2 laminates

(code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard laminates are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

Wilsonart
1.800.433.3222
Nevamar
1.800.638.4380

Formica
1.800.FORMICA
Pionite
1.800.285.5161

Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.

Wood veneer table tops are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Wood is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.

Wood veneer swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Lagunitas Tables

DESIGN TOAN NGUYEN

Swatch cards and actual samples of Coalesse standard wood veneers are available from your Coalesse Customer Service representative.

Additional wood veneer species are available. To confirm availability and to determine pricing, contact Customer Service at 1.800.627.6770.

Stains applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.
► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Stain-to-Match is available on this product and allows the matching of any wood finish with a one-time charge per finish.
► See *Coalesse Surface Materials Reference Guide* for details.

MoreThanFive Collaborative and Conference Tables

DESIGN COALESSE DESIGN GROUP and Michael Young

MoreThanFive provides a solid foundation around which to meet, anchoring collaborative and social spaces with cast iron legs and range of crafted top materials designed to inspire and differentiate.

Power modules with braided cord detail are available on rectangular tables for easy access to power.

Cable management tray can be specified on rectangular tables to conceal and route cables from power modules.

Top is available in glass and soft-touch laminate.

Legs are solid cast iron and available in two powder coat finishes.

Product Details

Tables are available in 28½"H working height.

Round

Square

Rectangular

Table shapes include: round, square, and rectangular.

A range of sizes are available to support a variety of applications.

Laminate tops are standard with a knife edge profile that has the appearance of a ½" thick top, which tapers to an overall top thickness of 1⅞".

Tops with a laminate surface have 3 mm plastic edge and finish selection.

Seating Capacity Guidelines

► See page 409

MoreThanFive Collaborative and Conference Tables

DESIGN COALESSE DESIGN GROUP and Michael Young

Glass tops rest directly on rubber bumpers attached to the base and are available in two tinted, acid-etched finishes. The glass is 1/2" thick.

Tip: Glass tops are not secured to the base. Glass tops are placed on rubber bumpers that are adhered to the base assembly. If glass tables need to be moved, remove the glass top prior to moving the table.

Legs are a single piece of cast iron and finished in 7207 Black or 7245 Carbon Metallic powder coat. When leg finish is specified, the table's center beam or connector is painted to match.

Adjustable glides have a range of 1/2" to accommodate for uneven floors.

Power Data, Wiring & Cabling

Power modules are available to specify on rectangular tables with laminate tops.

Modules can be placed on one or both ends of the tables. The 3" power module is available in four color options and features tamper resistant power simplex and an 8'L braided power cord with 15-amp plug. Power modules can be specified in three configurations:

- Two TR simplex receptacles
- One TR simplex receptacle and one dual USB A charging port
- One TR simplex receptacle, one USB A charging port, and one USB C charging port.

Tip: USB receptacles conveniently charge a range of electronic devices. Some devices may not be compatible.

Braided power cord offers a range of unique finishes in solid and striped patterns. Cord finish is specified independently of power unit finish.

When two power module units are specified, they are connected by a corded system and have a single infeed with a 15-amp plug. After exiting the leg, there is at least 60" of cord length available to connect to power source.

Cable management tray is painted to match the legs and attaches to the underside of the table surface to conceal power cords and route them to cutouts for connection to building power. The tray measures 50 1/5" W x 10 1/5" D and features center and side cutouts to allow cord to drop down to floor at desired location. Cable tray can be attached to either side of central support beam on underside of surface.

Surface Materials

Legs:

- 7207 Textured Black
- 7245 Carbon Metallic

Laminate Worksurface:

- 24H1 Satin White

Potrero415 Collaborative and Conference Tables

DESIGN COALESSE DESIGN GROUP

Potrero415 responds to the demand for more collaborative settings throughout the work-space, setting a new standard for one table series that fits wherever people gather.

Potrero415 spans a wide range of spaces and offers a breadth of materials and finish options to personalize every setting. Tables are available with metal or solid oak legs in work or standing heights. Technology and power options accommodate today's needs for connectivity.

Technology devices and grommets are available for easy access to power and data.

Cables can be neatly managed through metal legs, or outside of wood and metal legs through the cutouts in the bottom tray using one of the cable management solutions available.

Legs are available in aluminum metal or solid wood. Metal legs are available in powder coat or polished aluminum finishes.

Tables are also offered as standing height, 40"H.

Top is available in a wide variety of materials and finishes including: laminate, wood veneer, solid surface, or glass.

Leg rings can be specified in powder coat, chrome, or copper finishes.

Technology power modules are available and are dual sided, allowing easy access from both sides. They come equipped with multiple power, USB, AAP and data configurations to support technology needs.

Adjustable leveling glides accommodate uneven floors. Metal legs provide 1" adjustability and wood legs ½" adjustability.

Product Details

Tables are available in two heights:

- work height, 28½"H
- standing height, 40"H

Round

Square

Rectangular

Boat

Table shapes include: round, square, rectangular, and boat. A range of sizes are available to support a variety of applications.

Laminate and wood veneer tops are standard with a knife edge profile that has the appearance of a ½" thick top, which tapers to an overall top thickness of 1 ⅛".

Tops with a laminate surface have 3 mm plastic edge and finish selection. Wood veneer tops have a matching 3 mm edge. All corners have a radius.

Seating Capacity Guidelines
► See page 339

Potrero415 Collaborative and Conference Tables

DESIGN COALESSE DESIGN GROUP

Solid surface and glass tops are built with a substructure (bottom) and top construction. The substructure is 1 1/4" in thickness and is available in black or white. The glass or solid surface top is 1/2" thick. *Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.*

Tip: Solid surface and glass tops are not available on tables with standing-height wood legs or tables with seated-height wood legs exceeding lengths of 168".

Large tops are shipped in sections with hardware for field assembly. Tops 12' and larger are shipped in two or more pieces.

Large tops can be difficult to move through some buildings. If top dimensions are too large for installation site, please contact Specials for assistance with creating smaller top sections.

Tip: Inspect the building where the table will be installed to confirm that elevators, loading docks, hallways, doorways, windows, etc., can accommodate large table tops.

Laminate
Woodgrain Direction

Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top.

Woodgrain laminate sectioned tops cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections. Large tops that are 12' and longer in length in length require two or more separate sheets of laminate. Coalesse will create the best match that is possible between two sheets of laminate, but depending on the woodgrain laminate pattern that you choose, a perfect match between sections cannot be guaranteed.

Standard Veneer
Grain Direction

Veneer woodgrain runs parallel to the depth on all tops.

Same flitch matching is specified in cases where you want the veneer grain and pattern on two or more tops to come from the same flitch of veneer. This ensures a consistent grain pattern and coloration and should be specified when tops will be used near each other but not ganged.

Metal Legs

Metal legs are cast aluminum and are painted in powder coat finishes. Polished aluminum is available as an option.

Note: When polished aluminum is selected, the leg cover will be 9201 Polished Chrome. Otherwise, the leg cover matches the leg when painted.

Bottom tray conceals all cables and creates a clean visual. Bottom tray and frame matches the paint finish of the legs. If 8046 Polished Aluminum legs are specified, bottom tray and frame are 4142 Platinum Gloss. Inner dimensions of the bottom tray are: 33 1/32"H x 9 7/32"D.

Cable routing is accommodated through the metal legs and can be accessed through the removable cover.

Leg rings can be specified in powder coat, chrome, or copper finishes. If contrasting finish from the leg is selected, more or less can be shown by adjusting the glide.

Adjustable glides have a range of 1" on metal legs to accommodate uneven floors.

Wood Legs

Wood legs are solid oak and available in standard finishes or stain-to-match.

Frame powder coat paint finish must be specified on tables with wood legs and includes the frame, leg castings, and bottom tray.

Bottom tray conceals all cables and creates a clean visual. Inner dimensions of the bottom tray are: 33 1/32"H x 9 7/32"D.

Leg rings can be specified in powder coat, chrome, or copper finishes. The leg rings on wood legs are decorative and non-adjustable.

Adjustable glides have a range of 1/2" on wood legs to accommodate uneven floors.

Power Infeed

A power harness is concealed within the bottom tray and is specifically designed for each length of table. Drop in technology devices plug into the power harness.

- 60" round / 48", 60" square tables:
One duplex receptacle
- 72"-144" tables:
Two 15-amp duplex receptacles
- 168"-288" tables:
Two 15-amp quadplex receptacles

Chicago hardware option is also available. If selected, the power harness is eliminated and each device is supplied with 6' conduit for onsite wiring.

NEMA
5-20R Outlet

Connection to the building power supply is typically hardwired. A licensed electrician must make the connection. A single circuit, 20-amp plug connection is also available. This offers quick, easy connection to building power. An electrician must provide a dedicated NEMA 5-20R outlet within 12" of the infeed location. After the hardware infeed exits the metal leg or cable manager, there is 36" (work height) and 24" (standing height) of conduit to connect to a power source. After the 20-amp plug infeed exits the metal leg or cable manager, there is 24" of cord length for both work-height and standing-height tables.

If the Chicago hardware option is selected, the infeed is eliminated and each device is supplied with 6' conduit for onsite hardwiring to the building's power supply by a licensed electrician.

Potrero415 Collaborative and Conference Tables continued

DESIGN COALESSE DESIGN GROUP

Cable Management Options

Cutouts in the bottom tray provide an alternate way to route cords and cables to and from tables using a cable manager. Cutouts are 3½" by 5½" and are located on end and center locations.

The mesh cable manager provides pass-through cable management and is designed to be used with Potrero415 tables. The mesh and steel components are black. The opening for cables measures 2" x 2½".

The cable manager column provides lay-in, high capacity, and concealed cable management. Designed to be used with Potrero415 table cutouts, the aluminum column is available in painted finishes.

Cables can be concealed and run straight through the column to the floor, or out any side of the bottom, depending on location of building power supply.

Riser option is available and provides .906" clearance for field wired conduit when routing out the bottom.

Technology Devices

Round power module is only available on round and square tables and is centered. The 3" module is available in silver, milk, black, and graphite finishes. It comes with a 8'L power cord with 15-amp plug. Plug includes a built-in circuit breaker measuring 2¼"D x 1½"W x 1½"H. Round power module is available with two simplex receptacles or one simple/2 USB charging ports. USB receptacles conveniently charge a range of electric devices. Some devices may not be compatible.

PowerPod grommet is an option on all tables. The grommet allows for pass through of cords and cables at the desk. The grommet is available in black or milk.

The grommet is open to allow the PowerPod to be housed over or stored on the table top.

The contour of the PowerPod bottom cradle is designed to work in conjunction with the grommet for a snug fit.

PowerPod includes six 15-amp outlets with an energy saving illuminated on/off switch. It comes with a 6' cord with three prong plug. The top tray is milk and the power source is silver with a milk face. It is UL and CSA listed.

Tip: PowerPod is sold separately.

The square power module is available on 60" round and square tops, and all rectangular and boat shaped tops. Overall dimensions are 10½" x 10½". This unit is also called E2X square unit.

The unit is dual sided, providing access from both sides. The square power module is available in silver or black anodized aluminum. It comes with a 10'L power cord with a 15-amp plug, with circuit breaker. The unit is also available with Chicago hardwire option with 6' conduit for hardwiring in the field.

The square power module is available in the following configurations.

Note: Image represents one side of unit. The other side is the same configuration.

3 Power, 2 Blank Data—per side

2 Power, 1 Blank AAP—per side

Tip: Architectural Adapter Plates "AAPs" provide access to data, audio, video, and other technologies. The blank "AAPs" are compatible with Extron Electronics and accommodate two single spaces or one double space per side.

3 Power, 2 USB—per side

3 Power, 1 USB, 1 Blank Data—per side

Tip: USB receptacles conveniently charge a range of electric devices. Some devices may not be compatible. Each USB has two USB-A charging ports.

Potrero415 Collaborative and Conference Tables

DESIGN COALESSE DESIGN GROUP

The refined technology module for laminate and veneer tops includes a one-piece cast bezel available in painted finishes. Overall size is 10" x 13".

Sometimes the refined power technology unit is shortened to and referred to as power unit.

For laminate tops, a metal door is available and will be painted to match the bezel. For veneer tops, metal or veneer doors are available. The metal will match the bezel finish, and the veneer will match the veneer top.

The refined technology module for solid surface and glass tops are an under mount solution with no bezel, providing a seamless aesthetic. Overall size is 9" x 12".

For solid surface tops, metal or solid surface doors can be specified. For glass tops, metal doors are available.

The technology module is available on 60" round and square tops, as well as all rectangular and boat shaped tops. The unit is dual sided, providing access from both sides. It comes with a 10" L cord with a 15-amp plug with circuit breaker. The unit is also available with Chicago hardwire option with 6' conduit for hardwiring in the field.

The technology module is available in the following configurations:

3 Power, 1 Blank AAP – per side

2 Power, 1 Blank AAP, 1 USB – per side

2 Power, 2 USB – per side

Tip: Image represents one side of the unit, the other side is the same configuration.

Tip: Architectural Adapter Plates (AAPs) provide access to data, video, and other technologies. The blank "AAPs" are compatible with Extron Electronics and accommodate two single spaces or one double space per side.

Tip: Each USB has a dual, 5V charging port with one USB-A and one USB-C.

Tip: The refined technology unit cannot be positioned in center position when it is over a middle leg.

Building power interface.

Both hardwire and 20-amp infeeds are available.

One infeed powers each table.

The infeed can enter through any metal leg, or can be routed and concealed through the cutouts in the bottom tray to the floor using cable manager solutions.

Tip: When using the refined technology unit (power unit), the cutout directly below the power unit cannot be used to route cables with a cable manager. Instead, use a cutout that is off-set to ensure enough space for cables and manager.

Tip: If the Chicago hardwire option is selected, the power harness and infeed are eliminated and conduit is provided with each device for wiring in the field.

Surface mounted technology devices are available and support power, data and technology needs.

Bottom tray conceals all cords, cables and conduit.

A power harness is concealed within the bottom tray. Drop in technology devices plug into the power harness receptacles.

Removable cover on metal leg allows easy access and installation of technology cords.

Cross-section view showing conduit and cable routing capacity through the leg. Every metal leg has cable routing capability.

Tip: Wires are unable to be routed through the wood leg. A cable manager must be used to route cables with wood leg.

Note: Inside tray dimensions on rectangular and boat tops are 3 31/32"H x 9 9/32".

Note: Capacity is reduced slightly over center legs.

Note: Deeper bottom tray is available through Specials to support greater A/V customization, including cable retractors.

DESIGN COALESSE DESIGN GROUP

Surface Materials

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see *Other laminates* below.

Grade 1 laminates include:

- Coalesse standard laminates
► See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard laminates (code 290A)
► See *Steelcase Surface Materials Reference Manual*.
- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

Grade 2 laminates (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard laminates are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

Wilsonart
1.800.433.3222
Nevamar
1.800.638.4380
Formica
1.800.FORMICA
Pionite
1.800.285.5161

Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.

Wood veneer table tops are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Wood is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.

Wood veneer swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard wood veneers are available from your Coalesse Customer Service representative.

Additional wood veneer species are available. To confirm availability and to determine pricing, contact Customer Service at 1.800.627.6770.

Stains applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Stain-to-Match is available on this product and allows the matching of any wood finish with a one-time charge per finish.

► See *Coalesse Surface Materials Reference Guide* for details.

Solid surface tops are ½" thick on top of a 1¼" substructure. Solid surface is available in 2801 Glacier White.

Glass tops are ½" thick on top of a 1¼" substructure. Tops are tempered, low-iron glass available in multiple painted finishes.

When the legs are painted, the leg cover matches the leg. When the leg is polished aluminum, the leg cover is 9201 Polished Chrome.

Potrero415 Collaborative and Conference Tables

DESIGN COALESSE DESIGN GROUP

Round and Square Tables
with Metal Legs

Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.

Tip: For tables with solid surface and glass tops, overall height is ½" taller.

Tip: When polished aluminum leg is specified, frame is platinum gloss.

Tip: When "no infeed" is selected, each technology device is equipped with a 6' conduit to be hardwired on site. Square power and refined technology module support this option.

Tip: PowerPod grommet is available in 6000 Black or 6052 Milk.

Tip: Round power module is available in silver, milk, black and graphite finishes.

Tip: Square power module/E2X square unit is available in 8044 Black Anodized Aluminum or 8047 Silver Anodized Aluminum.

Tip: When technology is specified on 48" round tables only, the 15-amp power module cord can be managed from the desk top through a leg. Order leg cover thumb screws through Service Parts (1025537001SR) to allow for tool-free access.

DESIGN COALESSE DESIGN GROUP

264"L and 288"L Rectangular
Tables with Metal Legs

► Need help?
Product details,
page 414

Standard Includes

- Table top: grade 1 laminate with 3 mm flat plastic edge
- Legs and frame: grade 1 paint
- Leg ring: paint
- Eight adjustable glides
- Ships ready to assemble

Required to Specify

- 1 Style number
 - 2 Table top depth and width
 - 3 Laminate color number for table top
 - 4 Plastic edge color number for laminate table top, if selected
 - 5 Paint color number for legs and frame
 - 6 Paint color number for leg ring
 - 7 Options, if selected (see below)
- See *Coalesse Surface Materials Reference Guide*.

Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.

Tip: Large tops can be difficult to move through some buildings. If top dimensions are too large for installation site, please contact Specials for assistance with creating smaller top sections.

Tip: Woodgrain laminate sectioned tops cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections.

Tip: For tables with solid surface and glass tops, overall height is 1/2" taller.

Tip: When polished aluminum leg is specified, frame is platinum gloss.

Tip: When "no infeed" is selected, each technology device is equipped with a 6' conduit to be hardwired on site. Square power and refined technology module support this option.

Tip: PowerPod grommet is available in 6000 Black or 6052 Milk.

Tip: Square power module is available in 8044 Black Anodized Aluminum or 8047 Silver Anodized Aluminum.

	Options	U.S. Price	Required to Specify
Surface Materials	Table top		
	• Grade 2 laminate	Prices at right	Specify with grade 2 laminate and select color number.
	• Grade 3 laminate	Prices at right	Specify with grade 3 laminate and select color number.
	• Grade 2 wood veneer	Prices at right	Specify with grade 2 wood veneer and select color number.
	• Solid surface	Prices at right	Specify with solid surface group 1 and select color number for substructure (6000 Black or 6052 Milk).
	• Back-painted glass	Prices at right	Specify back-painted glass, select color number, and select color number for substructure (6000 Black or 6052 Milk).
	Legs on work-height tables		
	• Grade 3 paint	+\$ 416	Specify paint color number.
	• Polished aluminum	+\$ 879	Specify with 8046 Polished Aluminum.
	Leg ring		
	• Chrome or copper plating	+\$ 512	Specify 9201 Chrome, 9260 Black Chrome, or 9261 Copper.
Power Infeed	• No infeed — Chicago hardwired tech device	No cost	Specify with no infeed.
	• Hardwire	+\$ 605	Specify with hardwire power infeed.
	• 20-amp plug	+\$ 681	Specify with 20-amp plug power infeed.
Technology Devices and Grommets	PowerPod grommet		
	• PowerPod grommet	+\$ 172 each grommet	Specify with PowerPod grommet, select finish, device count, and device location (see next page for location options).
	Square power module/E2X power unit		
	• Six power/four data	+\$1100 each module	Specify with square power module with six power/four data, device count, device location, and select finish.
	• Four power/two blank AAP	+\$1100 each module	Specify with square power module with four power/two blank AAP, device count, device location, and select finish.
	• Six power/two USB/two data	+\$1393 each module	Specify with square power module with six power/two USB/two data, device count, device location, and select finish.
	• Six power/four USB	+\$1465 each module	Specify with square power module with six power/four USB, device count, device location, and select finish.
	Refined technology module (power unit)		
	• Laminate and veneer tops with bezel—metal doors		
	– Six power/two AAP	+\$1930	Specify with power unit with six power/two AAP and select finish.
	– Four power/two AAP/two USB	+\$2281	Specify with power unit with four power/two AAP/two USB and select finish.
	– Four power/four USB	+\$2562	Specify with power unit with four power/four USB and select finish.

Tables with Metal Legs

Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.

Tip: Large tops can be difficult to move through some buildings. If top dimensions are too large for installation site, please contact Specials for assistance with creating smaller top sections.

Tip: For tables with solid surface and glass tops, overall height is 1/2" taller.

Tip: When polished aluminum leg is specified, frame is platinum gloss.

Tip: When "no infeed" is selected, each technology device is equipped with a 6' conduit to be hardwired on site. Square power and refined technology module support this option.

Tip: PowerPod grommet is available in 6000 Black or 6052 Milk.

Tip: Square power module is available in 8044 Black Anodized Aluminum or 8047 Silver Anodized Aluminum.

DESIGN COALESSE DESIGN GROUP

264"L and 288"L Rectangular Tables
with Wood Legs

► Need help?
Product details,
page 414

Standard Includes

- Table top: grade 1 laminate with 3 mm flat plastic edge
- Frame: grade 1 paint
- Legs: solid oak
- Leg ring: grade 1
- Eight adjustable glides
- Ships ready to assemble

Required to Specify

- 1 Style number
 - 2 Table top depth and width
 - 3 Laminate color number for table top
 - 4 Plastic edge color number for laminate table top, if selected
 - 5 Paint color number for frame and leg ring
 - 6 Wood veneer color number for legs
 - 7 Options, if selected (see below)
- See *Coalesse Surface Materials Reference Guide*.

Tip: Woodgrain laminate sectioned tops cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections.

Tip: Large tops can be difficult to move through some buildings. If top dimensions are too large for installation site, please contact Specials for assistance with creating smaller top sections.

Tip: Solid surface and glass tops are not available on tables with standing-height wood legs or tables with seated-height wood legs exceeding lengths of 168".

Tip: When "no infeed" is selected, each technology device is equipped with a 6' conduit to be hardwired on site. Square power and refined technology module support this option.

Tip: PowerPod grommet is available in 6000 Black or 6052 Milk.

Tip: Square power module is available in 8044 Black Anodized Aluminum or 8047 Silver Anodized Aluminum.

	Options	U.S. Price	Required to Specify

Tip: Large tops can be difficult to move through some buildings. If top dimensions are too large for installation site, please contact Specials for assistance with creating smaller top sections.

Tip: Solid surface and glass tops are not available on tables with standing-height wood legs or tables with seated-height wood legs exceeding lengths of 168".

Tip: When "no infeed" is selected, each technology device is equipped with a 6' conduit to be hardwired on site. Square power and refined technology module support this option.

Tip: PowerPod grommet is available in 6000 Black or 6052 Milk.

Tip: Square power module is available in 8044 Black Anodized Aluminum or 8047 Silver Anodized Aluminum.

Round and Square Light Tables with Wood Legs	494
Rectangular Light Tables with Wood Legs	496
Cable Management	501

Potrero415 Light Collaborative and Conference Tables

DESIGN COALESSE DESIGN GROUP

Potrero415 Light tables are designed to support both collaborative and social applications in smaller, more personal meeting and in-between spaces. The tables have a broad range of materials, options, and customizable details to invite designers to create inspiring settings that encourage great work.

Tables are available with metal or solid oak legs, work or standing height, and a wide range of laminate, veneer, solid surface, or glass tops. Simple plug-and-play technology options keep mobile devices charged.

Top is available in a wide variety of materials and finishes including: laminate, wood veneer, solid surface, or glass.

Legs are available in aluminum metal or solid wood, in both work and standing height. Metal legs are available in powder coat or polished aluminum finishes. Solid wood legs are oak.

Leg rings can be specified in powder coat, chrome, or copper finishes.

Power modules and grommets are available for easy access to power.

Cables can be neatly managed through metal legs. Cable manager for wood legs is also available.

Adjustable leveling glides accommodate uneven floors. Metal legs provide 1" adjustability and wood legs 1/2" adjustability.

Seating Capacity Guidelines
► See page 484

Product Details

Tables are available in two heights:

- work height, 28½"H
- standing height, 40"H

Round

Square

Rectangular

Table shapes include: round, square, and rectangular. A range of sizes are available to support a variety of applications.

Laminate and wood veneer tops are standard with a knife edge profile that has the appearance of a 1/2" thick top, which tapers to an overall top thickness of 1 1/8".

Tops with a laminate surface have 3 mm plastic edge and finish selection. Wood veneer tops have a matching 3 mm edge. All corners have a radius.

Potrero415 Light Collaborative and Conference Tables

DESIGN COALESSE DESIGN GROUP

Solid surface and glass tops are built with a substructure (bottom) and top construction. The substructure is 1/4" in thickness and is available in black or white. The glass or solid surface top is 1/2" thick.
Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.

Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table.

Veneer woodgrain runs parallel to the width on all tops.

Metal Legs

Metal legs are painted in powder coat finishes. Polished aluminum is available as an option.

Bottom tray conceals all cables and creates a clean visual. Bottom tray and frame match the paint finish of the legs. If 8046 Polished Aluminum legs are specified, bottom tray and frame are painted in 4142 Platinum Gloss. Bottom tray may be removed as an option.

Cable routing is accommodated through the legs and can be accessed through the removable cover.

Leg rings can be specified in powder coat, chrome, or copper finishes. If contrasting finish from the leg is selected, more or less can be shown by adjusting the glide.

Adjustable glides have a range of 1" to accommodate uneven floors. The leg ring provides height adjustment capability.

Wood Legs

Solid wood legs are oak and available in standard finishes or stain-to-match.

Frame powder coat paint finish must be specified and includes the frame, leg castings, and bottom tray.

Bottom tray cover conceals all cables and creates a clean visual. Bottom tray may be removed as an option.

Leg rings can be specified in powder coat, chrome, or copper finishes. The leg rings are decorative and non-adjustable.

Adjustable glides have a range of 1/2" to accommodate uneven floors.

Cables can be managed down the wood legs with a cable management cover that zips around the leg. Cover is ordered separately and is available in a curated palette of Elmosoft leather colors for work and standing height tables.

Power, Data, Wiring & Cabling

PowerPod grommet is an option available on 30"D and 36"D tables. The grommet allows for pass through of cords and cables. The grommet is available in black or milk.

The grommet is open to allow the PowerPod to be housed over or stored on the table top.

Single power or USB module are available and can be specified in end or center locations. It comes with a 120" L power cord with 15-amp plug. The USB module has one USB A and one USB C 5V charging port. After exiting the leg, there is at least 30" of cord length available to connect to power source. If a single USB module is specified, the 15-amp plug includes a built-in transformer measuring 2 1/8"D x 1 1/4"W x 3 1/2"H. The power modules are available in milk, black, or graphite.

The contour of the PowerPod bottom cradle is designed to work in conjunction with the grommet for a snug fit.

When two or three power module units are specified, they are connected by a corded system and have a single infeed with a 15-amp plug. After exiting the leg, there is at least 60" of cord length available to connect to power source. Power and USB modules available. The USB module has one USB A and one USB C 5V charging port. The power modules are available in milk, black, or graphite.

PowerPod includes six 15-amp outlets with an energy saving illuminated on/off switch. It comes with a 6' cord with three prong plug. To ensure adequate cord length from table to building power, consider the placement of the PowerPod. The top tray is milk and the power source is silver with a milk face. It is UL and CSA listed.
Tip: PowerPod is sold separately.

Cutouts in the bottom tray provide an alternate way to route cords and cables to and from tables using a cable manager. Cutouts are located on end and center locations and measure: 24"D tables, 2 1/2" x 4 23/32"; 30"D and 36"D tables, 3 1/2" x 5 5/8".

The mesh cable manager provides pass-through cable management and can be used with 30"D and 36"D Potrero415 light tables, with bottom tray specified. The mesh and steel components are black. The opening for cables measures 2" x 2 1/2".

Steelcase vertical cable carrier (AHCC) is also compatible with all Potrero415 light tables.

Potrero415 Light Collaborative and Conference Tables

DESIGN COALESSE DESIGN GROUP

Technology Distribution and Support

Surface mounted technology devices are available and support power.

Removable cover on metal legs allows easy access and installation of technology cords.

Cables can be managed down the wood legs with a cable management cover that zips around the leg. Cover is ordered separately and is available in a curated palette of Elmosoft leather colors for work and standing height tables.

Bottom tray conceals all cords and cables.

Cutouts in the bottom tray provide an alternate way to route cords and cables to/from tables using a cable manager. Cutouts measure $2\frac{1}{2}'' \times 4\frac{23}{32}''$ on 24"D tables and $3\frac{1}{2}'' \times 5\frac{9}{10}''$ on 30"D and 36"D tables. Cutouts are located at end and center locations.

The Potrero415 mesh cable manager is recommended for 30"D and 36"D deep tables. The Steelcase vertical cable carrier (AHCC) is also compatible on all tables.

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see *Other laminates* below.

Grade 1 laminates include:

- Coalesse standard laminates
 - See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard laminates (code 290A)
 - See *Steelcase Surface Materials Reference Manual*.
- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

Grade 2 laminates (code 290B)

include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard laminates are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

Wilsonart
1.800.433.3222
Nevamar
1.800.638.4380

Formica
1.800.FORMICA
Pionite
1.800.285.5161

Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.

Wood veneer table tops are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Wood is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.

Wood veneer swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard wood veneers are available from your Coalesse Customer Service representative.

Additional wood veneer species are available. To confirm availability and to determine pricing, contact Customer Service at 1.800.627.6770.

Stains applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Stain-to-Match is available on this product and allows the matching of any wood finish with a one-time charge per finish.

► See *Coalesse Surface Materials Reference Guide* for details.

Solid surface tops are ½" thick on top of a 1¼" substructure. Solid surface is available in 2801 Glacier White.

Glass tops are ½" thick on top of a 1¼" substructure. Tops are tempered, low-iron glass available in multiple painted finishes.

Potrero415 Light Collaborative and Conference Tables

DESIGN COALESSE DESIGN GROUP

Round and Square Tables
with Metal Legs

Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.

Tip: For tables with solid surface and glass tops, overall height is 1/2" taller.

Tip: When polished aluminum leg is specified, frame is platinum gloss.

Tip: If PowerPod is specified, consider cable routing details to ensure cord length is adequate to reach building power.

Tip: Bottom tray conceals cords and provides a clean visual.

Tip: PowerPod grommet is available in 6000 Black or 6052 Milk.

Tip: Power and USB modules are available in 6000 Black, 6052 Milk, or 6D03 Graphite.

SW_1 Collaborative and Conference Tables

SW_1 is a clear alternative to the generic conference room. Enhancing social connectivity and fostering engagement, SW_1 promotes the healthful freedom of movement users deserve in collaborative settings, while offering the tools and features they need for productive meetings.

Tip: This product line is a collection and will be found in multiple locations in this specification guide and/or Coalesse Seating Specification Guide.

► See *Collections*, page 5

The top is available in four materials: laminate, veneer, glass, and solid surface.

Bases come in a 4-star base for round and square tables or V-bases with or without in-line legs for rectangular and super-elliptical tables. The cone at the top of the base has a hole for routing cables from power modules or PowerPod grommets to the wire manager. Bases are available in aluminum matte polished.

Power is available as an option. Power includes simple or performance power module options, as well as PowerPod grommet.

Lounge chair supports the "lean back" activity, while offering more space for postural changes than the conventional conference chair.
► See *Coalesse Seating and Outdoor Specification Guide*

The **pull-out tablet** allows the user to bring work up close. Tablets are available in black or arctic white and are only available on the 26"H collaborative height tables.

Wire manager comes standard with all power options and routes cords and cables from the cone to the floor. It is a separate piece that attaches to the column, available in black or milk. Additional wire manager options including cable tray are also available.

Adjustable glides are available for leveling on uneven floors. The adjustment range is $\frac{3}{4}$ ".

Product Details

Tables are available in the following heights:

- 28 ½"H standard table height
 - 26"H collaborative table height
 - 15"H occasional table height
- Page 620

Adjustable leveling glides have a range of $\frac{3}{4}$ " to accommodate uneven floors.

Table shapes include round, square, super-square, rectangular, and super-elliptical. A wide range of sizes up to 20'L is available to fit any room size.

Tablets are available only on 26"H collaborative table heights. They are optional on the 42"Wx84"Lx26"H and 42"Wx120"Lx26"H rectangular tables and on the 42"Wx42"Lx26"H and 84"Wx84"Lx26"H square table.

Seating Capacity Guidelines
► See page 507

SW_1 Collaborative and Conference Tables

The tablets pull-out 10" from the work surface and utilize two ball bearing slides.

The tablets are available in black or milk plastic over-molded material.

The table top is built into two sections, the substructure (bottom) and the table top. The substructure is a solid core of 45 lb median-density particle board, 1 1/4" thick, available in black or milk. The 1/2" thick top is available in the following:

- High-Pressure Laminate with backer with flat 3 mm vinyl edge banding
- Wood veneer with backer with matching flat 3 mm wood edge banding
- Glass with flat edge

Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.

- White solid surface with flat edge

4-star base, no power options

4-star base with power options (cone)

V-base, no in-line leg(s) with power options

V-base with in-line leg(s) with power options

Large round/square base with single-leg configuration with power options (cone)

Tip: Due to the cone locations, grommets and power modules are not centered on these base configurations.

Large round/square with v-leg configuration with power options (cone)

Tip: Due to the cone locations, grommets and power modules are not centered on these base configurations.

Bases are available in six configurations:

- 4-star base, no power options
- 4-star base with power options (cone)
- V-base, no in-line leg(s) with power options
- V-base with in-line leg(s) with power options
- Large round/square base with single-leg configuration with power options (cone)
- Large round/square base with v-leg configuration with power options (cone)

Bases are aluminum with a 2 1/2" diameter column. The column has a groove to accept the wire manager.

► See page 518 for leg locations.

Large tops are shipped in sections. The 1/2" top and 1/4" bottom substructure are shipped separately and are assembled in the field. Tite-joint fasteners are used for the bottom substructure and other hardware is used to assembly the 1/2" top to the substructure. Tables that are 12'L and larger always ship in two or three pieces.

Custom shapes and sizes
Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top.

Woodgrain laminate sectioned tops cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections. Large tops that are more than 12' in length require two or more separate sheets of laminate. Coalesse will create the best match that is possible between two sheets of laminate, but depending on the woodgrain laminate pattern that you choose, a perfect match between sections cannot be guaranteed.

For sectioned 3- or 4-piece tops, it is not recommended to use wood grain laminates, as the grain pattern of each section will not match.

Standard veneer grain directions—grain directions are determined by the size and shape of the table top. Refer to the following guidelines for standard grain directions.

Grain runs parallel to the width of the rectangular and super-elliptical table tops.

Tops 96"L and less have a choice of an optional grain pattern that runs the length of the top.

Same flitch matching is available through specials and can be specified in cases where you want the veneer grain and pattern on two or more tops to come from the same flitch of veneer. This ensures a consistent grain pattern and coloration and should be specified when tops will be used near each other but not ganged.

Technology Devices

Simple power module measures 4 1/8" in diameter and is available in soft-touch milk and black finishes. The module's face can flip to conceal power when not in use. The simple power module comes with a 10' power cord with 15-amp plug and can only be specified above table legs (cones). It is available with three simplex receptacles or two simplex receptacles and one USB receptacle.

Tip: USB receptacles conveniently charge a range of electronic devices. Some devices may not be compatible. Each USB has 1 USB A and 1 USB C charging port.

Performance power module measures 10 1/2" x 3 3/8" and is available in milk, black, and platinum matte. It comes with a 10' power cord with 15-amp plug or hardwire infied with 8' of cord. Performance power can be specified between legs of most rectangle and super-elliptical tables and is available in the following configurations (plug orientation as shown):

3 Power, 2 USB

2 Power, 1 Blank AAP

Tip: Architectural Adapter Plates "AAPs" provide access to data, audio, video, and other technologies. The blank "AAPs" are compatible with Extron Electronics and accommodate two single spaces or one double space per side.

SW_1 Collaborative and Conference Tables *continued*

1 Power, 1 USB, and 1 Blank AAP

Tip: USB receptacles conveniently charge a range of electronic devices. Some devices may not be compatible. Each USB has 1 USB A and 1 USB C charging port.

When two or more simple or performance power modules are specified, the ganging power option connects all units by a corded system and has a single infeed with 15-amp plug. *Tip: If two or more performance power modules are selected, the ganging power option is forced.*

Tip: Ganging option is not available when hardwire infeed is selected. When ganging power is specified, only one vertical wire manager is supplied.

Performance power is available centered between base supports only, never directly over a base column.

PowerPod grommet accommodates PowerPod or the pass through of cords and cables to the desktop. When specified, PowerPod grommets come with an inside barrier in the cone, and are available in milk and black finishes. PowerPod grommets can only be located above table legs (cone).

PowerPod is a design conscious, portable power source and accessory all in one. It can be used on any table top for easy access to power.

PowerPod includes six 15-amp outlets with an energy saving illuminated on/off switch. It comes with a 6' cord with three prong plug. The top tray is milk and the power source is silver with a milk face. It is UL and CSA listed.

The contour of the PowerPod bottom cradle is designed to work in conjunction with the grommet for a snug fit or can be used independently without a grommet.

Tip: Simple power cannot be added retroactively to a top that already has a cut out for PowerPod.

Cable Management Options

The cone at the top of the base attaches to the work surface and accommodates the simple power module and PowerPod grommet. The cone allows cords and cables to be passed through and coiled for storage. If specified with PowerPod grommet, a barrier attaches to the inside of the column to help hold and conceal cords and cables. The barrier comes in black or milk to match the grommet.

Tip: A power strip cannot fit inside the cone.

The SW_1 vertical wire manager is supplied when a any non-hardwired power module is specified. It attaches to the groove in the base column to conceal and hold power cords and voice/data cables routed vertically from the floor to the worksurface. The wire manager is available in black or milk and automatically matches chosen subtop color.

Note: For any occasional tables that can be specified with a PowerPod grommet or simple power unit, no vertical wire manager is supplied.

The vertical wire manager is divided into two sections for cord and cable management. Three cords/cables can be routed per section.

Mesh power cord cover is supplied when a power module is specified with hardwire infeed. The cover wraps around and conceals cords, allowing them to exit out of the center and down to the floor. The cover is black, measures 72" in length, and can accommodate up to 7/8" diameter of wiring.

Tip: Mesh power cord cover can be trimmed to the desired length.

Cable tray is standard in platinum powder coat and attaches to the work surface between the legs, disguising the performance power module and ganged power system. The tray clearly routes wires and cables from the worksurface to the vertical wire manager or through the opening in the center of the tray, measuring 2" by 7/8" inches. The tray is available to specify on most rectangle and super-elliptical tables.

Horizontal wire management velcro clips are available as an alternative or accompaniment to the cable tray and manage wires from one end of the table to the other, if desired. They come in a package of six and are attached under the worksurface with the provided screws.

Surface Materials

Solid core tops with 1/2" nominal edge thickness have a particle board core (45 lb cu ft density) with High-Pressure Laminate or wood veneer on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate, wood veneer, and backer are bonded to the core with a PVA adhesive.

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see Other laminates in the following column.

Grade 1 laminates include:

- Coalesse standard laminates
- See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard laminates (code 290A)
- See *Steelcase Surface Materials Reference Manual*.
- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A).

Grade 2 laminates (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

SW_1 Collaborative and Conference Tables

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard laminates are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

- Wilsonart 1.800.433.3222
- Nevamar 1.800.638.4380
- Formica 1.800.FORMICA
- Pionite 1.800.285.5161

Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.

Wood veneer table tops are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Wood is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.

Additional wood veneer species are available. To confirm availability and to determine pricing, contact Customer Service at 1.800.627.6770.

Stains applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Stain-to-Match is available on this product and allows the matching of any wood finish with a one-time charge per finish.

► See *Coalesse Surface Materials Reference Guide* for details.

Solid surface is available in white solid.

Glass is available in six colors.

Table bases are available in polished matte aluminum. Refer to the individual product specifying pages for availability.

Cable trays are painted 4141 Platinum Matte to coordinate with the table bases in polished aluminum. Simple power is available in 6000 Black plastic and 6052 Milk plastic. Performance power is a painted plate and corresponding plastic receptacles. Paint available is 4242 Milk, 4710 Low Gloss Black, and 4141 Platinum Matte.

Care and Maintenance

Laminate should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

Veneers should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish, use silicone-free household polishers. Use sparingly.

Tip: Never use ammonia-based cleaners or wax on wood surfaces.

Polished aluminum finishes on table bases should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

Tables should be inspected and maintained regularly by tightening screws and bolts, inspecting glides for damage, and inspecting all moving parts for damage and wear.

Solid surface should be cleaned regularly with mild soap and water. Dry with a soft cloth.

SW_1 Table and Tablet Surfaces:

Clean with soft cloth dampened with water and soap, if needed. The use of general purpose cleaners are acceptable but must be void of citric content that has zbutoxyethanol in the formulation listing.

SW_1 Collaborative and Conference Tables Applications

- **Low conference configuration with lounge seating** challenges the conventional relationship between the lounge chair and table. The lowered table height creates a more casual and social work setting which encourages collaboration and comfort.

- **The diamond shape configuration** creates a collaborative lounge instead of a conference room. Everyone is on a corner, there are no middle seats. The smaller tables are easier to reconfigure and expand, which simplifies facility planning.

- **Occasional table configuration** works in lobbies, enclaves, or small meeting areas.

- **Work tables** can be placed into any setting as the main work or meeting area.

- **Standard height conference tables** are an elegant way to host meetings with a range of technology needs.

Low Collaborative Conference Tables

DESIGN SCOTT WILSON & MINIMAL

Tip: Your specification is not complete until you add the fifth letter to the style number to define top surface.

L - Laminate top
V - Wood veneer top
C - Solid surface top
G - Glass top

Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.

Tip: Performance power available on select tables.
 ► See Base Matrix on page 510 for details.

Tip: Standard grain direction runs the width of the table (front-to back).

Tip: The wire manager finish is not selectable, it will be the same as the substructure finish choice.

Tip: Multiple power units of the same type can be specified with independent power configurations.

Tip: Power ganging is only available when two or more simple or performance power modules are specified.

Veneer direction

SW_1 Collaborative and Conference Tables

Conference Tables

DESIGN SCOTT WILSON & MINIMAL

Tip: Your specification is not complete until you add the fifth letter to the style number to define top surface.

L - Laminate top
V - Wood veneer top
C - Solid surface top
G - Glass top

Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.

Veneer direction

Tip: Standard grain direction runs the width of the table (front-to back).

Tip: The wire manager finish is not selectable, it will be the same as the substructure finish choice.

Tip: Performance power available on select tables.
 ▶ See Base Matrix on page 510 for details.

Tip: Power ganging is only available when two or more simple or performance power modules are specified.

Tip: When power ganging is specified, only one vertical wire manager is supplied.

Standard Includes		Required to Specify

Train Collaborative and Conference Tables

Understanding	536
Specifying	
Rectangular Tables	558
90° Corner Tops	564
Accessories	565

Train Collaborative and Conference Tables

Train tables are ideal for rapidly changing learning environments. Train tables have tops that flip. Tables nest for compact storage and can be rolled while nested.

Top is 1" thick particle board with laminate surface.

Base is cast aluminum with powder coat color.

Casters are 3" diameter locking dual wheels with urethane threads that allow the tables to move on hard or carpeted floors. Glides are also available.

Offset leg design allows tables to nest.

Dimensions			
Table Length (A)	Width Between Inside Legs (B)	Inside Width Between Outside Legs (C)	Outside Width Between Outside Legs (D)
48"L	33 ⁷ / ₈ "	41 ¹ / ₄ "	45 ¹ / ₂ "
60"L	45 ⁷ / ₈ "	53 ¹ / ₄ "	57 ¹ / ₂ "
72"L	57 ⁷ / ₈ "	65 ¹ / ₄ "	69 ¹ / ₂ "

Seating Capacity Guidelines
► See page 546.

Product Details

Solid core tops with 1" nominal edge thickness have a particle board core (45 lb cu ft density) with High-Pressure Laminate and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate and backer are bonded to the core with a PVA adhesive.

Table with top flipped is 24"W. Each additional table adds approximately 10". Three nested tables occupy about 44" of space and by angling can be moved through a standard 36"W doorway. Optional raceway or modesty panels do not affect nesting or space requirements.

Tables when flipped have overall heights of 36¹/₄" for 24"W tables and 39¹/₄" for 30"W tables.

Train Collaborative and Conference Tables

Bumpers and rub strips on legs prevent tables from damaging each other when nested.

Base is cast aluminum with powder coat color. Offset leg design allows tables to nest.

Table height is standard at 28½"H.

Glides are available as an alternative to casters if high mobility is not required. Glides are cast aluminum with a textured black powder coat. Adjustability range is ½"H. Replacing casters with glides does not alter the table height.

Coupling device is built into every Train table to enable tables to gang together end-to-end without tools or separate parts.

Top is 1"-thick particle board with laminate.

Signature edge profile is standard on Train. This special edge profile is not available on other table products and is only available in 6000 Black.

Table bases are available with powder coat colors. Refer to the individual product specifying pages for availability. Powder coat colors are shown in the *Coalesse Surface Materials Reference Guide*.

Casters are available as a factory-installed option on 3" dual locking caster Train tables.

Tip: Casters cannot be adjusted to level tables.

Edges are black vinyl. Soft rolled edge on user's side, black vinyl coupler edge on remaining sides, and black injection molded plastic corners. User edge is a soft, sloped profile that is comfortable for resting your arms. All other edges are flat and compress slightly when tables are ganged to produce a perfect seal. Corners are injection-molded plastic.

Corner tops can link perpendicular Train tables and expand the useable area in many configurations. Corner tops can also be specified with raceways to match adjacent tables.

Tip: Tables specified with raceway have the option of a 4-circuit corner raceway, to connect to a powered raceway, if desired. Tables specified with no raceway have the option of the 2-circuit jumper to connect the modular table power kit, if desired.

Modesty panel is available to enclose space beneath table and to provide two 2" x 3" wire management troughs. Panel is extruded aluminum with powder coat color to match the table legs. Trough is plastic extrusion. Modesty panel attaches to stretcher and swings open for access.

Tip: Desktop devices are located on the outside of the modesty panel and do not cover the underside wires.

Raceway is a combination modesty panel, wire manager, and power/data distribution channel. Panel is extruded aluminum with powder coat color to match the table legs. Access to the space inside the raceway is possible from both sides. Two separate cable routing spaces are available.

The high-capacity lower space accommodates power and home run data cables.

The upper space is used for appliance and patch cords.

Removable end caps on raceways snap out to allow unobstructed cable routing.

Tip: The raceway is only compatible with the 4-circuit electrical system.

Custom shapes and sizes

Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Cut-down tops, which are standard table tops with smaller dimensions, are available. Use the product number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Customer Service at 1.800.627.6770.

Tip: Upcharge for a cut-down top is applied one time only per size/style number.

Tip: Fee is at list and contract discounts apply.

Laminate
Woodgrain Direction

Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

Train Collaborative and Conference Tables

4-Circuit Power, Data, and Wiring for Raceway

The 4-circuit modular electrical system can be specified with raceways on tables, or you can create a hardwired electrical network on site. Modular electrical units include harnesses with modular connectors to allow them to be snapped together or reconfigured and power blocks to accommodate power receptacles added on site.

Duplex receptacles and power infeeds are ordered separately.

Duplex receptacles snap into power blocks on site. They are coded to indicate which circuit and type of ground they will engage. Tools are not required for installation. Tables that are 48"L can accommodate up to two receptacles. Tables that are 60"L or 72"L can accommodate up to four receptacles.

Power infeeds bring electrical power from the building to any table within a run of tables that are coupled together. Modular connections with the furniture is made at valance panel located at either end of the raceway on the knee-wall side, next to the table leg. Two alternative power infeeds can be used.

Each circuit allows up to a maximum of eight duplex receptacles.

Four-circuit, hardwire power infeed connects to the building with a hardwired connection. Harness connects to the table with a modular connector. Infeed carries four 20-amp circuits. Connection must be made by a qualified electrician in accordance with local codes. A version of this infeed that is approved for use in New York City is also available.

Four circuit, modular power infeed connects to the building with a modular connection at both ends. Wall box with modular connection point is hardwired to the building by a qualified electrician in accordance with local codes. Infeed carries four 20-amp circuits.

Train table electrical power components are available in various wiring schematics to accommodate a wide range of branch circuit configurations and power needs. The eight-wire system is available in three alternatives—four-circuit 3+1, four-circuit 2+2, and three-circuit separate neutrals.

All components in an electrical system must use the same wiring schematic. Components are color coded and keyed to make it impossible to connect mismatched parts.

► See *Wiring Schematics*, page 540

All Coalesse electrical components are approved by Underwriters Laboratory (UL) and by the Canadian Standards Association (CSA).

All Coalesse electrical systems are designed in compliance with the National Electrical Code (NEC) and Canadian Electrical Code (CEC) to function as a multi-wire branch circuit. Installations should be made in accordance with the NEC or CEC provisions for multi-wire branch circuits.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper installation of all electrical equipment.

Chicago and some other locations require installation to be hardwired.

Wire management modesty panel includes two integral wire management troughs made of 2" x 3" extruded black plastic. Each track accommodates approximately 18 Cat 5 UTP cables or four power cords. The troughs are spaced apart to provide an opportunity to separate power and voice/data networks. Modesty panel is hinged in its center to allow access to the cable routing space from the aisle side of the table.

Gap between the underside of table top and the top of modesty panel provides a 1"H space to allow cables to be routed from the worksurface to the cable management troughs. Grommets can also be specified in the table top to route cables.

Raceway includes a 3" x 6" interior cavity that can accommodate approximately 40 four-pair UTP cables. Wire guide in this space is a steel bracket with numerous holes suitable for wire ties or clips to support tidy wire management. Raceway end caps have flexible vinyl openings to allow lay-in cable routing. Cables can enter or leave the raceway through openings in the valance panel.

Outlet rail in the upper portion of the raceway has an opening to accommodate standard NEMA-style, single-gang, modular furniture voice/data faceplates.

The Train raceway can accommodate most industry standard 4-port network switches and patch cords (customer supplied) for easiest reconfiguration of network wired environments. For more static environments, the Train raceway can accommodate up to 40 twisted pair network cables (customer supplied).

Modular infeeds to connect to wall-mounted boxes or monuments are also available to connect voice/data access points in the building.

► Page 572

Train Collaborative and Conference Tables *continued*

Four-circuit, 3+1 also known as 3+D (color-coded black). The fourth circuit is isolated and has its own neutral.

Circuit Panel 1

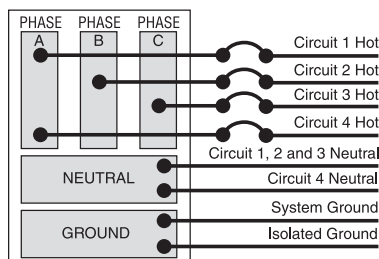

Circuit Panel 2

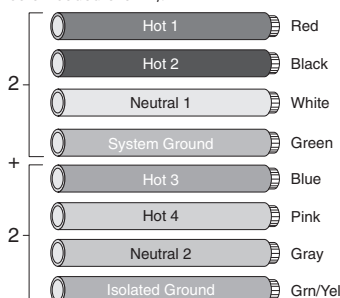

In the four-circuit, 3+1 schematic, circuits 1, 2, and 3 are distributed from the first circuit panel and are supported with one shared neutral and one shared ground. Circuit 4 is distributed from a second circuit panel and is supported with a separate neutral and ground.

Single 3-Phase Circuit Panel

On a single 3-phase circuit panel, all four circuits are distributed as shown.

Four-circuit, 2+2 (product number suffix "Y", color-coded brown).

Circuit Panel 1

Circuit Panel 2

In the four-circuit, 2+2 schematic, circuits 1 and 2 are distributed from two different phases from the first circuit panel and are supported with one shared neutral and one shared ground. Circuits 3 and 4 are distributed from a second circuit panel and supported by their own shared neutral and ground.

Single 3-Phase Circuit Panel

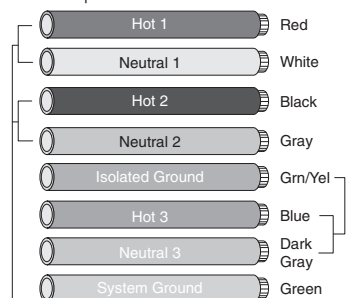

On a single 3-phase circuit panel, all four circuits are distributed as shown.

Split-Phase Circuit Panel

On a split-phase circuit panel, all four circuits are distributed as shown.

Three-circuit separate neutrals (model number suffix "Z" to model number, color-coded rust). Three circuits are each provided with their own neutral wire.

Train Collaborative and Conference Tables

Circuit Panel 1

Circuit Panel 2

In the three-circuit, separate neutral schematic, circuits 1 and 2 are distributed from two different phases from the first circuit panel. Each circuit is supported with its own neutral and a common ground. Circuit 3 is distributed from the second circuit panel and is supported by its own neutral and ground.

Single 3-Phase Circuit Panel

On a single 3-phase circuit panel, all four circuits are distributed as shown.

Split-Phase Circuit Panel

On a split-phase circuit panel, all four circuits are distributed as shown.

Power, Data, and Wiring for 2-Circuit Modular Table Power Kits

Axil Z

Axil Z is an 8" x 3" desktop module that mounts at the top surface of the table and can be configured in several choices of power/data/USB:

- 2 power/2 data
- 2 power/1 data/1 USB
- 2 power/2 USB
- 3 power/1 data
- 3 power/1 USB
- 4 power

The customer-supplied RJ-type voice/data communication outlets, when specified, come with an array of faceplates to accommodate a range of voice/data communication outlets.

► See *Axil Z and Ellora Telecommunications Reference Chart*, page 554).

Axil Z is available in gloss white or gloss black. Axil Z is UL listed. Axil Z can be used with table top thicknesses of 3/4"–1 1/2" by adjusting the thumb screws that secure the desktop module to the table.

Axil Z cord has a six-foot power cord and standard 15-amp plug for configurations with three or less simplex power outlets. The configuration of four simplex power outlets includes a non-standard 15-amp plug with a circuit breaker.

Axil Z hardware has six feet of flexible steel conduit for permanently hardwiring to the building power supply by a licensed electrician. This is to be used with tables with glides only, no casters. This version is best suited for municipalities where code requires hardwire connections for this type of desktop device or for installations where the furniture will not be reconfigured or moved.

Train Collaborative and Conference Tables *continued*

Ellora

Ellora is an 8 1/4" x 5 1/4" desktop module that mounts at the top surface of the table and can be configured in several choices of power/data/USB:

- 2 power/2 data
- 2 power/1 data/1 USB
- 2 power/2 USB
- 3 power/1 data
- 3 power/1 USB
- 4 power

The customer-supplied RJ-type voice/data communication outlets, when specified, come with an array of faceplates to accommodate a range of voice/data communication outlets.

► See *Axil Z and Ellora Telecommunications Reference Chart*, page 554).

Ellora is available in anodized aluminum and is standard with a lift-up access door. Ellora is UL listed. Ellora can be used with table top thicknesses of 3/4"–1 1/2" by attaching the clips that secure the desktop module to the table.

Ellora cord has a six-foot power cord and standard 15-amp plug for configurations with three or less simplex power outlets. The configuration of four simplex power outlets includes a non-standard 15-amp plug with a circuit breaker.

Ellora hardwire has six feet of flexible steel conduit for permanently hardwiring to the building power supply by a licensed electrician. This is to be used with tables with glides only, no casters. This version is best suited for municipalities where code requires hardwire connections for this type of desktop device or for installations where the furniture will not be reconfigured or moved.

In order to meet Chicago code approvals, the desktop module must be metal, therefore, only Axil Z, Ellora, and Interact would be approved.

For Axil Z and Ellora, the USB for charging option is configured in the spot of one data port and is always configured on the end(s). It contains two USB ports for charging.

Modular furniture faceplates to accept voice/data outlets are available directly from many suppliers. Coalesse does not supply these components. For information about compatibility, contact the manufacturers: Amp 1.800.522.6752. Ask for Flexmode modular furniture faceplates and outlets. Krone 1.800.775.5766. Ask for Convergence modular furniture faceplates and outlets. Panduit 1.800.777.3300. Ask for Mini-Com modular furniture faceplates and outlets.

Factory installed cutouts are available as standard option for Train tables (see location guide for placement). For the top to have a factory installed cutout on Train, you must specify the option, where applicable, otherwise the table will be shipped without a cutout.

Field installed cutouts are ordered separately, not as an option, therefore, the table top will not have a cutout and must be cut in the field per the required locations.

► See *Standard Location for Grommets, Spheres, Interport, Mini-Port, Interact, Axil Z, and Ellora*, page 546.

Single Duplex Receptacle

Double Duplex Receptacle

When several Train tables without raceways need to be daisy-chained, i.e., one table connected to the other providing power to the entire series, the 2-circuit modular table power kits are mounted to the underside of the Train tables without raceways. It is an option to select either one duplex receptacle or two duplex receptacles, depending on the table to connect power from one table to the next.

► See *Modular Power Kit Lengths*, page 550.

The installation of the modular table power system must be followed in accordance with all assembly directions. Improper usage could result in risk of fire or electric shock. Only connect to products labeled "Modular Table Power System". For use in indoor, dry locations only.

The modular table power system is a directional system in that it runs in one direction. Installation can be set-up to run left-to-right, or right-to-left, depending on the location of the base power infeed. This is ideal where modularity and reconfigurability are required with the number of connections to the building power supply being minimized.

The directional modular power kit consists of one "male" modular connector and one "female" modular connector allowing the only way to connect and the power system. The modular connectors snap together, and easily disengage by squeezing the spring clips on the female end. The modular connectors are designed for easy end-user reconfigurations.

Train Collaborative and Conference Tables

Male Modular Connector

Female Modular Connector

The modular connectors are color-coded for intuitive match-up when connecting the modular table power system. Match like colors only, i.e., green to green, red to red, black to black, and white to white.

The 2-circuit modular table power kits are easily installed into pre-drilled holes in the Train table and are placed end-to-end with the duplex receptacle(s) in the middle. The modular power kit connectors are easily accessible and always in the same location. The optional power kit is available with either a one or two duplex receptacles and comes with all the necessary hardware, i.e., conduit clamps, receptacle bracket(s), and conduit plastic snap clips. Just specify the modular table power kit to match the length of your table.

Tip: The 2-circuit modular table power kit can only be specified on Train tables without raceways.

Axil Z

Ellora

Only corded desktop modules can be used with the modular table power kits. The hardwire Axil Z or Ellora desktop module does not work with modular table power kits.

Modular table power kits require either a 20-amp plug infeed or hardwire infeed to power the tables. A 20-amp plug infeed with a modular female connector can only be used with Circuit-1 receptacles, whereas, the hardwire infeed with a modular female connector can be used with either or both, Circuit-1 and Circuit-2 receptacles.

The 20-amp plug infeed, COBPIFMP20, is used when reconfigurability is needed and does not require an electrician. When the installation is permanent or local electrical codes are restrictive, a hardwire base power infeed, COBPIFMH, is available. This requires the tables to be specified with glides, not casters. This infeed must be installed by a licensed electrician in compliance with all local and national codes.

A tether/strain relief bracket comes standard with all base power infeeds. The first table in a series of tables connected with modular power, must be anchored in place with the tether. The tether anchors the table to the building, preventing disengagement of the electrical connections. The tether length between the connection to the table and the building must always be shorter than the hardwire infeed length between the modular connection and the building. Consult the assembly directions for proper installation.

Train Collaborative and Conference Tables *continued*

The **modular table power kit** is a 20-amp, 4-wire, 2-circuit system. Each circuit allows up to 13 duplex receptacles. The 20-amp plug infeed only allows up to 13 Circuit-1 duplex receptacles, and the hardwire infeed allows up to 26 Circuit-1 and -2 duplex receptacles, no more than 13 per circuit.

The **duplex receptacle(s)** in the table power kit and **every two simplex receptacles from the desktop module** count against the 13 duplex receptacles allowed for each circuit. The above example has a total of nine duplex receptacles being utilized.

A **coupling device** is built into every Train Table to enable tables to gang together end-to-end without tools or separate parts. All Train tables that have modular table power specified, requires the tables to be connected with the coupling device provided.

Table-Table: must be held together with table connection hardware, not by electrical components.

Table-Power In-Feed: table must be anchored in place.

1. Identify the conduit path along the center channel. Utilize predrilled holes in the surface for all components.
Note: Conduit on 24"W Tables will "jump" the center spine (as shown). Conduit on 30"W tables will be located to the rear of the center spine.
2. Fasten receptacle bracket and snap-clips, then loosely fasten conduit clamps. Install power in the desired direction and tighten clamps.

In back-to-back applications, where modesty panels are used, the modesty panel will prevent the modular power kits from connecting. Therefore, another infeed will be required for the adjacent row of tables.

Train Collaborative and Conference Tables

Specifying desktop power with modular table power kits.

Tip: Grommets can be mixed with desktop modules on a single table.

1. Determine the type of desktop module required and its configuration.

Choose among grommets and desktop modules, such as, Axil Z, or Ellora, and pick the one that fits the configuration requirements needed.

2. Determine how many desktop modules or grommets you need and where they will be located on each table.

Understand the number of people sitting at the table with the requirements between power, data, and USB along with where the desktop modules are located, one in the center and two in left and right position for individual or shared use.

► See *Standard Grommet/Axil Z/Ellora Locations for Train Rectangle Tables*, page 548.

3. Table length determines your modular table power length required.

If modular connections are required, then a modular table power kit is required. Choose between one duplex receptacle or two duplex receptacles, depending on the plug-in needs.

► See *Modular Power Kit Lengths*, page 550.

4. Determine how to connect to the building supply, code requirements, and user needs.

The most important consideration is adequate electrical power supplied to a number of desktop modules fed by a single base power infeed. If reconfiguration is desired and smaller configurations are required, then a single circuit 20-amp plug infeed is the best option. If larger configurations are required and the tables are not being reconfigured, then a hardwire infeed is the best option. Each circuit allows up to 13 duplex receptacles to be connected which includes desktop modules. Every two desktop simplex outlets count as one duplex receptacle. A two-power desktop module counts as one duplex receptacle, a three-power desktop module counts as one duplex receptacle and a four-power desktop module counts as two duplex receptacles.

Straight and Corner layouts for Train.

Power strip is available to provide additional power outlets beneath tables that must accommodate many technological components. Power strip includes six 15-amp outlets with surge protection, on-off switch, and 15' cord with three-prong plug. Power strip is black. UL and CSA listed and tested to UL standard 1449 at 400V.

PowerPod is a design conscious, portable power source and accessory tray all in one. It can be used on any table top for easy access to power.

PowerPod includes six 15-amp outlets with an energy saving illuminated on/off switch. It comes with a 6' cord with three prong plug. The top tray is milk and the power source is silver with a milk face. It is UL and CSA listed.

Grommets are available in the tops of Train tables to allow cords and cables to be routed through the top and into the modesty panel or raceway. Grommet is 2"-diameter, black plastic insert with snap-out cap.

Surface Materials

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see Other laminates in the following column.

Grade 1 laminates include:

- Coalesse standard High-Pressure Laminates
- See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard High-Pressure Laminates (code 290A)
- See *Steelcase Surface Materials Reference Manual*.
- Any standard-grade Wilsonart High-Pressure Laminate in solid color, woodgrain, or pattern finish (code 290A)

Grade 2 laminates (code 290B) include any standard-grade, solid color, woodgrain, or patterned High-Pressure Laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the *Coalesse Surface Materials Reference Guide*.

Switch cards and actual samples of Coalesse standard laminates are available from your Coalesse Customer Service representative. For samples of High-Pressure Laminates from other manufacturers, contact them directly:

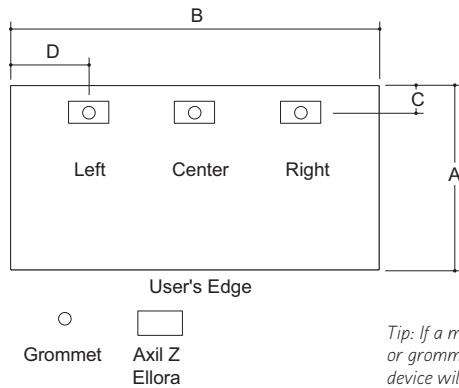

Wilsonart	1.800.433.3222
Nevamar	1.800.638.4380
Formica	1.800.FORMICA
Pionite	1.800.285.5161

Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.

Tip: Signature edgeband is available in 6000 Black only.

Train Collaborative and Conference Tables continued

Standard Grommet/Axil Z/Ellora Locations for Train Rectangle Tables

Tip: If a modesty panel is ordered with a desktop device or grommet, the cords or the bottom of the desktop device will be on the outside of the modesty panel.

Care & Maintenance

Laminate should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

Powder coat finishes on table bases should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

Polished aluminum finishes on table bases should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

Tables should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

► Options, continued on next page

Tip: All electrical system components (raceways, receptacles, base power infeeds, etc.) must be the same wiring schematic.

Tip: Raceway has access doors on both aisle and kneewell sides.

Tip: Modular connector occupies one receptacle location in raceway.

Tip: Raceway is only compatible with the 4-circuit electrical system.

Tip: For Axil Z and Ellora, the USB for charging is configured in the spot of one data port and is always configured on the end(s).

Tip: For each USB port specified, there are two USBs per port.

Tip: The hardwire Axil Z, or hardwire Ellora desktop module does not work with modular table power kits.

Tip: If a modesty panel is ordered with a desktop device or grommet, the cords or the bottom of the desktop device will be on the outside of the modesty panel.

For Canadian Pricing
 Multiply U.S. Price by the Canadian price factor.

	• For 72"L tables - modular power kit with one center duplex receptacle, circuit 2	+\$ 402	Specify with 72"L modular power kit with circuit 2 duplex receptacle.

► Options, continued on next page

Tip: Modular table power kits require either a 20-amp plug infeed or hardwire infeed to power the tables. A 20-amp plug infeed can only be used with Circuit 1 receptacles, and the hardwire infeed can be used with either or both, Circuit 1 and Circuit 2 receptacles. Both infeeds have a color coded female modular connector that must plug into the matching color coded male infeed connector on the modular power kits.

Tip: The modular table power kit does not work with the raceways, with electrical or without electrical system, it can be used with or without a modesty panel.

Tip: The modular table power kit is a 2-circuit system and is not compatible with the 4-circuit electrical in the raceway. The connectors are also not compatible.

For Canadian Pricing
 Multiply U.S. Price by the Canadian price factor.
 ► See page 1 for details.

Train Collaborative and Conference Tables 90° Corner Tops

DESIGN VECTA DESIGN TEAM AND IDEO

Tip: Shipped knocked down.

Tip: All electrical system components (raceways, receptacles, base power infeeds, etc.) must be the same wiring schematic: 3+1, 2+2, or three-circuit, separate neutrals.

Tip: When using modular table power kits and connecting tops, a jumper kit must be specified for the corner, in order to maintain the power connection from table to table.

Tip: The modular table power jumper kit is a 2-circuit system and is not compatible with the 4-circuit electrical in the raceway. The connectors are also not compatible.

Standard Includes	Required to Specify

Montara650 Café Tables

DESIGN COALESSE DESIGN GROUP

Montara650 is a comprehensive collection that offers a simple, refined design that can be customized to support a range of applications, postures, and aesthetics.

Tip: This product line is a collection and will be found in multiple locations, either in this specification guide and/or another specification guide.

► See *Collections*, page 5

Top is available in laminate with a 3 mm plastic edge or wood veneer with matching 3 mm edge.

Round power module and PowerPod grommet are options on most table sizes.

Base is available in powder coat paint.

Cord management is routed through the column and exits at the base. Clearance is 1/2".

Glides are non-adjustable.

Product Details

Round

Square

Rectangular

Base shape matches top shape. Round tops have round bases. Square and rectangular tops have square bases.

Tables are standard with a knife edge profile that has the appearance of a 1/2" thick top, which tapers to an overall top thickness of 1 1/8".

Understructure without power

Understructure with power

Tops with a laminate surface have 3 mm plastic edge and finish selection. Wood veneer tops have a matching 3 mm edge.

Café at Bar Height

► Specifying, page 588

Power module and PowerPod grommet are options for the following tables:

- 30" and larger occasional tables
- 36" and larger work and café height tables
- Large rectangular tops have the option of one or two grommets, located on table end(s).

The grommet allows for pass through of cords and cables at the desktop. The grommet is open to allow for the PowerPod to be housed over or stored on the table. The grommet inside dimension is 3 1/2" and outside dimension is 5 1/16".

Cords can be routed from the grommet in the desktop through the column and out the base.

Tip: If table is over a floor core, the floor core must be recessed or flush to the floor and must be centered over the column.

Power module is 4" in diameter. The power module comes with two power receptacles, one power and one USB A charging port, or one power receptacle, one USB A charging port and one USB C charging port.

The module is available centered over the post. It comes with a 96" L power cord with 15-amp plug.

Round power module is available in:

- 4013 Silver/Black
- 4180 Graphite Matte
- 4242 Milk Smooth
- 4710 Low Gloss Black

Await Occasional Tables

DESIGN EOOS

Await occasional tables are cantilevered side tables offered in two heights. These tables offer a temporary home for laptops and coffee cups.

Tip: This product line is part of a collection and will be found in multiple locations in this specification guide and/or Coalesse Seating Specification Guide.

► See *Collections*, page 5

Solid steel tablet rod and base plate are available in gloss powder coat.

Tablet top is available in High-Pressure Laminate or glass.

Polyethylene glides are standard to ease movement and protect the flooring from damage.

Product Details

Freestanding round tables are 15 $\frac{3}{4}$ " diameter on both 19" and 25" heights. Freestanding tables are standard with a gloss, powder coat frame. High-Pressure Laminate top option features a matching 3 mm edge band and glass top option is $\frac{1}{2}$ " thick with radiused edges.

Bob Occasional Tables

DESIGN PEARSON LLOYD

The Bob occasional table

features a base design and support column that matches the lounge and guest chair.

Tip: This product line is part of a collection and will be found in multiple locations in this specification guide and/or Coalesse Seating Specification Guide.

► See *Collections*, page 5

Bob collection also features lounge and guest chairs.

► See *Coalesse Seating Specification Guide*.

Top is 1/2" thick glass with beveled top and bottom edges.

Tops are also available in laminate and veneer with 3 mm edge, and solid surface. Tops are 1" thick.

Four-leg base features a single steel column with an aluminum base, available in painted or polished finishes.

Glides are a durable plastic to facilitate movement of the table. Felt glides are available for use on non-carpeted floors.

Product Details

Occasional tables are available in four sizes: 24", 30", 36", and 42" diameters. All sizes are 15 3/4"H. Table tops are 1/2" thick glass. Tops are also available in 1" thick laminate, veneer, or solid surface.

Center metal disc adheres to the glass top. The disc is supported on the column.

Laminate, veneer, and solid surface tops are attached to a plate on the column that cannot be seen through the top.

CG_1 Occasional Tables

DESIGN CORY GROSSER

The CG_1 occasional table is an iconic, modern table that fits anywhere.

Product Details

Tables are available in two heights: 14"H and 19"H. 14"H tables are available in the following widths: 36"D x 36"W, 42"D x 42"W, 60"D x 60"W, 18"D x 36"W, and 18"D x 42"W. 19"H tables are available as 20"D x 20"W, 24"D x 24"W, and 24"D x 36"W.

Tapered legs consist of an inner and outer piece. The inner piece is comprised of a contrasting solid surface material or solid wood, which wraps around the bottom to provide a glide. The outer piece is part of the frame that is offered in painted aluminum or wood veneer.

Circa Lounge System

Freestanding Round Table

DESIGN ALISON SPEAR, AIA

Tip: Stain-to-Match is offered on wood legs.

Tip: All legs measure 6½" in height.

Tip: The round plate that houses the power/data module is powder coated to complement the power/data module finish. For the black anodized aluminum module, the round plate will be painted in 4710 Low Gloss Black. For the silver anodized aluminum module, the round plate will be painted 4799 Platinum.

Overall: 42" dia. 15¾"H

Tip: Tapered wood and metal legs have a thin, blade aesthetic.

Diekman Occasional Tables

DESIGN NORMAN DIEKMAN

Diekman offers an assortment of accent tables to be used alone or as a base for glass tops. Abstract art was Norman Diekman's inspiration for this collection.

Glass top model consists of two Diekman wood bases and 1/2" thick elliptical or rectangular glass top.

Bases are hard maple veneer.

Glides are polyethylene and non-adjustable to protect floors.

Product Details

Tables are offered in multiple "half-cylinder" organic shapes which resemble tree trunks, in hard maple veneer. Glass top model consists of two wood bases with radiused edges. Clear, plastic buttons separate the glass from the table base.

Surface Materials

► See *Coalesse Surface Materials Reference Guide* for further information.

Enea Lottus Occasional Tables

DESIGN LIEVORE ALTHERR MOLINA

The Enea Lottus collection is suitable for many applications including meeting spaces, cafeterias, and more. It brings a simple and clean design aesthetic to live/work settings.

Tip: This product line is part of a collection and will be found in multiple locations in this specification guide and/or Coalesse Seating Specification Guide.

► See *Collections*, page 5

Table tops are available in three sizes in 1/2" thick laminate or wood veneer.

Base and column is constructed of steel and is available in powder coat finishes.

Glides are non-skid.

The Enea collection also features visually compatible guest seating and stools.

► See *Coalesse Seating Specification Guide*.

Product Details

Occasional tables are 18"H and are available in three top sizes: 30", 36", and 42" diameter with 1/2" thick phenolic core and beveled bottom edge. Column is 2 5/16" diameter steel tubing. Disc base is 1/4" thick plate.

Surface Materials

Free Stand Occasional Table

DESIGN STEPHEN COPELAND

Free Stand is foldable, height-adjustable, and lightweight. The generous work-surface rotates to fit the style of the user. A built-in handle makes it easy to carry.

Worksurface height adjusts from 20"–27" using spring-loaded triggers.

Worksurface rotates 360° with soft detent stops at the parallel positions.

Base is cast aluminum with four glides.

Product Details

Worksurface is ABS plastic and painted with a soft touch paint which provides a soft, rubber-like texture. Column is made up of telescoping aluminum extrusions with a built-in handle, allowing ease of mobility. The u-shape of the base allows for maximum user foot space and easy maneuverability around chair bases.

Lightweight design allows for ease of portability; weighs 11 pounds.

Worksurface is height adjustable to 22 possible height increments. No tools are required to fold/unfold unit or make height adjustments through the use of spring loaded triggers. Folds to 5" high for easy storage.

Nesting capabilities minimize required storage space. Each nested unit extends 5¼" beyond the previous unit.

Surface Materials

► See *Coalesse Surface Materials Reference Guide* for further information.

Tablet top

- Black, soft-touch

Column and base

- Black paint only

Free Stand Occasional Table

DESIGN STEPHEN COPELAND

Tip: Worksurface height adjusts from 20"–27" and rotates 360°.

Tip: Free stand is 5" tall when folded/collapsed and weighs 11 lb.

Tip: Free stand can nest. In nested position each additional unit extends 5 1/4" beyond the previous unit.

Sebastopol Occasional Tables

Thought Starters

DESIGN EMILIA BORGTHORSDDOTTIR

Sebastopol is a unique collection of tables with endless configuration possibilities. It comprises of 2 shapes, each shape being offered in a 16" high and 22" high version. The following are just a few thought starters.

To create these table configurations use the following pieces labeled either A or B in any combination of the two heights, or use them on their own as a stand alone piece.

Shape A:
COEB2723 L or H

Shape B:
COEB4118 L or H

Sebastopol Occasional Tables

DESIGN EMILIA BORGTHORSDDOTTIR

Tip: Optional grommet to accept PowerPod can be specified in milk white or black plastic.

Tip: If a grommet is specified with a PowerPod and the table is over a floor core, the floor core outlet cannot be flush to the floor, because the plug end will not allow the PowerPod to sit in the grommet. If the floor core is flush to the floor and the grommet and PowerPod are required, the table either cannot be set over the floor core, or a special plinth base will be required. Consult your specials representative for additional information on the plinth base.

Exponents Benches

The Exponents collection offers holistic solutions for collaboration in conference rooms, enclaves, and open space settings. It is a flexible platform for addressing functional and aesthetic requirements in a single, comprehensive offering. Benches allow for additional perimeter "overflow" seating and storage for conference room settings which maximizes the use of the real estate. Benches can also be used in open plan settings for short term collaborative settings.

Tip: This product line is a collection and will be found in more than one location in this specification guide.

► See Collections, page 5

Top cushion is standard on all benches. The seat cushion is available in fabric and leather upholstery.

Metal leg bases are standard with adjustable glides. The legs are painted and are available in black matte, platinum matte or paint.

Back panel is standard unfinished. An optional finished back panel is available.

Doors open downward 90° utilizing self opening hinges with a soft close catch. Optional door locks are also available.

Accent ribbon detail is on the perimeter of the bench front openings and is offered in paint.

Exponents Benches

Product Details

The bench is available in three widths, two depths, and one height: 48"W, 72"W, or 96"W x 18"D (no doors) or 18¾"D (with doors) x 16½"H.

The benches are standard in wood veneer. The door fronts, if selected, can be specified in a different finish from the case.

All benches are standard only with a top cushion which is approximately 1⅞" thick.

The doors are opened from the top. The ½" gap created by the accent ribbon detail allows for a clean, uninterrupted aesthetic.

The benches always have an inner ¾" divider. The 48"W bench has one divider creating two separate compartments, the 72"W bench has two dividers creating three compartments and the 96"W bench has three dividers creating four separate compartments.

Doors are standard with 90° fold down self close hinges with soft close feature.

The interior dimension of each compartment is 16"D x 22¾"W (17¼" with accent ribbon) x 10½"H. When the door is in the open position the height clearance is 10"H. The hinges impede on the width and depth of the bench, 14½"D x 20"W.

1¼"W accent ribbon detail runs along the inside fronts of the bench in painted aluminum.

Bottom base on benches are standard with five legs, four outer, and one middle leg. The base is available in two powder coat paint finishes, black matte or platinum matte.

Glides are available for each bench base leg. The glide adjustment is ⅜".

Benches can be placed next to another bench or can be ganged to bench bridges by the use of two ganging plates at the bottom on each end, which is standard with the bench bridges.

The back is standard unfinished in black backer. For applications where the back will not be against a wall, specify the optional finished back option. The back has an integrated reveal that is the finish of the case when the optional back finish is specified.

Optional locks are available for the benches with doors. Each door has its own lock. Locks are available in ember chrome or polished chrome finish.

Specials are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

3" metal base:

- Black matte paint
- Platinum matte paint

Cushion:

- Fabric
- Leather

Optional lock(s)

- 9201 Polished Chrome
- 9250 Ember Chrome

Wood is a natural material, slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Tip: You should know that finishes may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made for an exact match.

Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. The variation is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Exponents Benches continued

Swatch cards and actual samples of standard wood veneers are available from your Coalesse Customer Service representative.

Stain-to-Match is available on this product and allows the matching of any wood finish with a one-time charge per finish.

► See *Coalesse Surface Materials Reference Guide* for details.

Care & Maintenance

Veneers should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish veneers, use silicone-free household polishers. Use sparingly.

Tip: Never use ammonia-based cleaners or wax on wood surfaces.

Painted finishes should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleaner, such as Windex.

All products should be inspected and maintained regularly by inspecting glides for damage and inspecting all moving parts, i.e., suspensions, for damage and wear.

Exponents Benches

DESIGN COALESSE DESIGN GROUP

Exponents Bench Bridges

The **Exponents collection** offers holistic solutions for collaboration in conference rooms, enclaves, and open space settings. It is a flexible platform for addressing functional and aesthetic requirements in a single, comprehensive offering. Bench bridges work with the benches allowing for technology needs to be accessed within the setting.

Tip: This product line is a collection and will be found in more than one location in this specification guide.

► See *Collections*, page 5

End-of-run bench bridge is non-handed. An optional three power module is available.

End panels are always finished to match all other sides of the case.

Metal leg base is standard with adjustable glides for the end-of-run bench bridge. The legs are painted and are available in black matte, platinum matte or paint.

In-line bench bridge is non-handed. An optional three power module is available.

End panels are unfinished with a black backer, as these will always be hidden when connected to the benches.

Exponents Bench Bridges

Product Details

The bench bridge is available in two types:

- In-line bridge, 18"D x 24"W x 15"H
- End-of-run bridge, 18"D x 24"W x 15"H

The bench bridges are standard in wood veneer.

The in-line bridge has four attachment brackets to attach to the benches on each side.

The end-of-run bridge has a bottom base and comes with two attachment brackets to attach to the bench.

Bench bridges must be ganged to a bench unit only. The attachment brackets are 1/4"W x 1/4" thick.

The in-line bridge must be attached to two benches, one on each side. The in-line bridge comes standard with four attachment brackets, and two ganging plates at the bottom of each end. The brackets attach in the slots at the bottom of the bridge and mounted with screws in the bench.

The end-of-run bridge must be attached to one bench at the end of a run. The end-of-run bridge comes standard with two attachment brackets and legs. The brackets attach in the slots at the bottom of the bridge and mounted with screws in the bench.

Specials are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Wiring and Cabling

The optional power module is standard with three water-proof simplex outlets. It is standard with a six foot cord. The power module is aluminum with black gloss paint. The power module is UL listed.

The cutout on all bench bridges is 2"D x 5 1/4"W.

In-line Bridge

End-of-Run Bridge

Power module is standard on the end of the in-line and end-of-run bridge.

In-line Bridge

End-of-Run Bridge

To install, remove and route the power module cord, there is a 4" round cutout at the bottom of the corner bridge and there is one 4" cutout at the bottom of the in-line and end-of-run bridges.

Surface Materials

Top, front, and back of in-line bridge cases:

- Wood veneer

Top, front, sides and back of end-of-run bridge cases:

- Wood veneer

In-line bridge sides:

- Black backer

End-of-run bridge base:

- Black matte paint
- Platinum matte paint

Optional power:

- Black gloss

Wood is a natural material, slight variations occur in veneer texture, color, grain configuration and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Tip: You should know that finishes may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made for an exact match.

Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. The variation is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Exponents Bench Bridges continued

Stain swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Stain-to-Match is available on this product and allows the matching of any wood finish with a one-time charge per finish.

► See *Coalesse Surface Materials Reference Guide* for details.

Care & Maintenance

Veneers should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish veneers, use silicone-free household polishers. Use sparingly.

Tip: Never use ammonia-based cleaners or wax on wood surfaces.

Painted finishes should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleaner, such as Windex.

All products should be inspected and maintained regularly by inspecting glides for damage and inspecting all moving parts, i.e., suspensions, for damage and wear.

Exponents Credenzas

The Exponents collection offers holistic solutions for collaboration in conference rooms, enclaves, and open space settings. It is a flexible platform for addressing functional and aesthetic requirements in a single, comprehensive offering. Credenzas allow for conference storage for varying types of items. Cable routing allows for easy and hidden connections.

Tip: This product line is a collection and will be found in more than one location in this specification guide.

► See Collections, page 5

The top matches the case finish. An optional accent top can be specified in differing material from the case; glass. Optional grommets are also available.

Credenzas come standard with black backer. Optional matching finished back panel is available.

Plinth base is standard on all credenzas and matches the case finish selection. An optional metal leg base is available in black matte or platinum matte paint. All bases are available with adjustable glides.

Accent ribbon detail is on the perimeter of the credenza front openings and is offered in paint.

Doors open 110° utilizing soft-close hinges. Optional door locks are also available.

Adjustable shelves are standard on the 27"H and 39"H credenzas. Additional shelves are also available. An optional pull-out shelf is available for the 27"H partial open credenza in the mid-section(s) only.

Exponents Credenzas

Product Details

Credenzas are available in three widths, two depths, and two heights:

48"W, 72"W, or 96"W
24"D (no doors) or 24 $\frac{3}{4}$ "D (with doors or partial doors)
27"H or 39"H

The credenzas are standard in wood veneer. The door fronts, if selected, can be specified in a different finish from the case.

Standard Top

Accent Top

All credenzas are standard with a top that matches the case finish. An optional accent top can be specified in differing materials from the case. The accent top is available in the following:

- Glass (flare coated only)

The accent top adds $\frac{1}{2}$ " to the overall height.

The doors are opened from the top. The $\frac{1}{2}$ " gap created by the ribbon detail allows for a clean, uninterrupted aesthetic.

Doors are standard with 110° soft close hinges.

TOP VIEW

For 48"W credenzas, the left door is hinged left and the right door is hinged right. For 72"W credenzas, the left door is hinged left, the middle door is hinged right, and the right door is hinged right. For 96"W credenzas, the left two doors are hinged left and the right two doors are hinged right.

1 $\frac{1}{4}$ "W accent ribbon detail runs along the inside fronts of the credenzas and comes in painted aluminum.

The credenzas have an inner $\frac{3}{4}$ " divider. The 72"W credenza has two dividers creating three compartments and the 96"W credenza has three dividers creating four separate compartments.

The interior width dimension of each compartment:

- 72"W (each compartment)**
- 22 $\frac{1}{2}$ "W (two end compartments)
 - 24"W (middle compartment)
- Hinges impede the width by 1".
- 96"W (each compartment)**
- 22 $\frac{1}{2}$ "W (two end compartments)
 - 23 $\frac{3}{8}$ "W (middle two compartments)
- Hinges impede the width by 1".

The interior depth dimension of each compartment:

48"W, 72"W, and 96"W (each compartment)

- 22"D (23 $\frac{1}{4}$ " with accent ribbon)
- Hinges impede the depth without accent ribbon by $1\frac{1}{2}$ ".

The interior height dimension of each compartment:

- 27"H (each compartment)**
- 22 $\frac{1}{2}$ "H
- 39"H (each compartment)**
- 34 $\frac{1}{2}$ "H

The adjustable shelves are $\frac{3}{4}$ " thick. The shelves adjust on $1\frac{1}{4}$ " increments.

The adjustable shelves come in four dimensions, depending on the compartment and are standard with cable management routing in the corners of the shelf.

- 48"W (each compartment)**
- 22 $\frac{3}{4}$ "W
- 72"W (each compartment)**
- 22 $\frac{3}{8}$ "W (two end compartments)
 - 23 $\frac{7}{8}$ "W (middle compartments)
- 96"W (each compartment)**
- 22 $\frac{3}{8}$ "W (two end compartments)
 - 23 $\frac{7}{8}$ "W (middle two compartments)

For the 39"H credenza, there are two sets of five holes. The top hole is 9" down from the underside of the top to the center of the hole and the bottom hole is 9" up from the bottom fixed shelf to the center of the hole. The gap in between the two sets of holes is $6\frac{1}{2}$ ".

For the 27"H credenza, there are five holes. The top hole is $8\frac{3}{4}$ " down from the underside of the top to the center of the hole and the bottom hole is $8\frac{3}{4}$ " up from the bottom fixed shelf to the center of the hole.

Exponents Credenzas *continued*

For credenza compartments without doors, the adjustable shelf will be the same color as the case finish. All adjustable shelves behind doors will match the finish of the case.

Optional pull-out shelf, for open middle compartments only, allows for easy access to devices. The pull-out shelf uses ball-bearing suspensions for a smooth operation. The pull-out shelf extends out 14 $\frac{3}{4}$ ". The pull-out shelf is specifiable in wood veneer. The interior dimension of the pull-out shelf is 17 $\frac{1}{2}$ "D x 21 $\frac{1}{2}$ "W x 2 $\frac{1}{2}$ "H. The exterior dimension is 18"D x 22 $\frac{1}{2}$ "W x 3"H.

Tip: When a pull-out shelf is specified, it does not take the place of the standard adjustable shelf. It is an additional item.

For the 39"H credenzas, no optional pull-out shelves are available.

For the 27"H credenzas, one optional pull-out shelf can be specified per open middle compartment. The pull-out shelves are only specifiable in the 72"W credenza, open middle compartment and the 96"W credenza, two open middle compartments.

The pull-out shelf will be the same finish as the case finish.

Optional locks are available for the credenzas with doors. Each door has its own lock. Locks are available in ember chrome or polished chrome finish.

The back is standard unfinished in black backer and has a 1"D x 23"W cutout at the top middle for wire management.

For applications where the back will not be against a wall, specify the optional finished back panel.

The base on all credenzas are standard as a 3" plinth base. The plinth base matches the case finish. The base is flush on the sides and front for open fronts.

The back of the plinth base is inset 2" for access to the bottom cutouts.

An optional metal base is available on all credenzas. The metal base always has one leg in each corner (four total). One additional middle leg is used for the 48"W, two additional middle legs are used for the 72"W, and three additional middle legs are used for the 96"W. The base is available in two powder coat paint finishes, black matte and platinum matte.

Plastic glides are available for each credenza base type, plinth, and metal leg. The glides are $\frac{3}{8}$ " diameter. The glide adjustment is $\frac{3}{8}$ ".

Specials are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Wiring and Cabling

The bottom of the credenzas is standard with wire management cutouts, 1"D x 12"W. Each compartment has its own cutout.

- 48"W credenzas have two cutouts.
- 72"W credenzas have three cutouts.
- 96"W credenzas have four cutouts.

For applications where the back will not be against a wall, specify the optional finished back panel.

For applications to be used with the wire management cutout, specify the unfinished back. The cutout is not available with finished back in order to keep a clean aesthetic.

Wire management cutouts are standard in the back of the $\frac{3}{4}$ " compartment dividers to route wires from one compartment to the next.

An optional grommet is available for all credenzas. The grommet is 2 $\frac{1}{2}$ " in diameter and is available in multiple locations with or without an accent top. Grommets are available in black matte or platinum matte paint.

Standard Includes

- Case: wood veneer
- Door fronts with 110° soft close hinges, if selected: wood veneer
- Accent ribbon: paint
- Plinth base: matches case finish
- Two adjustable shelves per opening, behind doors: matches case
- Ships assembled

Required to Specify

- 1 Style number
 - 2 Wood color number for case
 - 3 Wood color number for door fronts, if selected
 - 4 Paint color number for accent ribbon:
4135 Black Matte
4141 Platinum Matte
 - 5 Options, if selected (see below)
- See *Coalesse Surface Materials Reference Guide*.

Tip: The adjustable and pull-out shelf finishes are not specifiable. When selected, finish will match case.

Tip: When finished back panel is specified, the finish will match the case finish.

Tip: Metal legs and glass tops require assembly.

Tip: Grommets can be specified on credenzas with and without accent tops.

Exponents Lectern

The **Exponents collection** offers holistic solutions for collaboration in conference rooms, enclaves, and open space settings. It is a flexible platform for addressing functional and aesthetic requirements in a single, comprehensive offering. The lectern provides a place for formal presentations.

Tip: This product line is a collection and will be found in more than one location in this specification guide.

► See *Collections*, page 5

Back panel is removable for easy wire management access. The back panel can be specified in a different material than the rest of the lectern.

Accent detail is on the sides of the lectern in a coordinating veneer or laminate.

Lectern comes standard with four nylon glides.

Top flip lid allows for access to power, voice, and data and/or storage of power and data cords.

The lectern top shelf is angled for presentations as well as laptop usage. It is standard with an aluminum pencil/paper stop, which matches the finish of the base. The lectern top shelf has a maximum recommended load of 45 pounds.

Metal base is painted in either black matte or platinum matte.

Exponents Lectern

Product Details

The lectern is available in one dimensional configuration: 18 $\frac{3}{4}$ "D x 23 $\frac{1}{2}$ "W x 48"H.

The lectern is standard in wood veneer.

Lectern top shelf is 14 $\frac{1}{4}$ "D x 23 $\frac{1}{2}$ "W x $\frac{1}{2}$ " thick and 42 $\frac{1}{8}$ " high. The angle of the shelf is 8 $\frac{1}{2}$ ". It has an integrated aluminum pencil/paper stop for holding documents, which is painted to match the finish of the base, platinum matte or black matte.

Metal base is 17"D x 23 $\frac{1}{2}$ "W x $\frac{3}{8}$ " thick and is painted, platinum matte or black matte. Four nylon glides are standard for easy movement when required. The glides are $\frac{1}{4}$ " thick and 3" in diameter.

Accent detail runs along the sides of the lectern. Available in a coordinating veneer or laminate. The accent detail is $\frac{1}{2}$ "W.

Wiring and Cabling

The top flip lid has a cutout for easy opening and cable routing. The lid opens towards the top shelf and comes standard with two 160° hinges to access power, voice and data or storing cords and cables.

The back panel is removable by lifting up and out. The panel has four small aluminum cleats for easy removal and installation when access to wire management is required. The back panel can be specified in a different finish than the case. *Tip: The back panel must be removed to install the PVD device.*

The section where the PVD is installed is 3 $\frac{1}{8}$ "D x 20 $\frac{1}{2}$ "W x 3"H which can store access wires, such as laptop power blocks, VGA cords, etc.

The cutout is standard on all lecterns and is 2"D x 8 $\frac{1}{2}$ "W.

Data Architectural Adapter Plate has two CAT 6 RJ45 barrel (pass-through) outlets.

Video/Audio Architectural Adapter Plate has one VGA outlet (HD15 female to female gender changer) and one audio outlet (3 $\frac{1}{2}$ mm stereo mini jack to solder tabs).

The optional PVD is standard with two water-proof simplex outlets, two data (Extron AAP) and one VGA with audio (Extron AAP). It is standard with a six foot cord. The PVD is aluminum and is available in black gloss paint only. The PVD is UL listed. For information on other style AAPs and to find an Extron Electronics dealer, call Extron at 800.633.9876 or online at www.extron.com.

The cords can exit or enter from either side of the lectern at the bottom. The hole is $\frac{3}{8}$ "W x $\frac{1}{2}$ "H.

Surface Materials

- Wood veneer

Pencil stop (matches base)

- Black matte paint
- Platinum matte paint

Optional PVD

- Black gloss only

Wood is a natural material, slight variations occur in veneer texture, color, grain configuration and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products. Due to natural variations in wood, finished products may vary from samples in color, texture and grain.

Tip: You should know that finishes may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made for exact match.

Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. The variation is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Stain-to-Match is available on this product and allows the matching of any wood finish with a one-time charge per finish.

► See *Coalesse Surface Materials Reference Guide* for details.

Care & Maintenance

Veneers should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish veneers, use silicone-free household polishes. Use sparingly. *Tip: Never use ammonia-based cleaners or wax on wood surfaces.*

Painted finishes should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleaner, such as Windex.

All products should be inspected and maintained regularly by inspecting casters and glides for damage and inspecting all moving parts, i.e., suspensions, for damage and wear.

Exponents Lectern

DESIGN COALESSE DESIGN GROUP

Exponents Mobile Display Boards

The Exponents mobile display design allows seamless adaptability to any setting without compromising the integrity of the space. The mobile display boards, functionally and aesthetically, go beyond almost all industrial mobile displays.

Tip: This product line is a collection and will be found in more than one location in this specification guide.

► See Collections, page 5

Back panel is a removable markerboard surface that is standard in e³ CeramicSteel with milk gloss painted aluminum extrusion.

Outer frame trim, located on both sides, is standard in painted MDF and optional in wood veneer to complement any environment.

Handle, located on each side for easy movement, doubles as storage for dry erase markers and eraser. The handles are painted to match the base and inner frame.

Inner frame is painted to match the handle and base.

Grommet for plug is standard on one side in black plastic. It is standard on the mediaboard mobile display unit. It allows the cord to exit the display which powers the entire display.

Bumper on each end is plastic that complements the base paint.

Front panel is a fixed markerboard surface that is standard in e³ CeramicSteel with milk gloss painted aluminum extrusion.

Monitor mount is standard on the mediaboard mobile display unit.

Well opening on mediaboard houses the power and display module.

A shelf can be ordered as an option for items like laptops or miscellaneous items that are used with the mediaboard mobile display unit.

Base is steel and is painted to match the handle and inner frame.

Two 4" swivel locking casters and two 4" fixed casters are standard. White casters default to the milk paint specification and black casters default to the black paint specification.

Exponents Mobile Display Boards

Product Details

The mobile display products are available in two types, mobile whiteboard display and mobile mediaboard display with whiteboard.

The mobile whiteboard display is offered in two widths, 36"W and 48"W. The mobile mediaboard display with whiteboard is offered in 48"W only. All mobile display products are 24¹/₈"D and 75⁷/₈"H.

The front and back panel display thickness is 9/16". The thickness of the outer trim is 3", leaving a reveal of the painted inner frame of 1/2" on each side of the outer trim.

The front panel and back panel are standard in e³ CeramicSteel with a milk gloss painted aluminum extrusion. The e³ CeramicSteel is magnetic.

The e³ environmental CeramicSteel Difference Steelcase Premium White Boards incorporate the e³ environmental CeramicSteel surface, which is the first and only ecologically intelligent whiteboard surface to receive a MBDC Cradle to Cradle Gold certification. Cradle to Cradle certification evaluates products for environmentally safe and healthy materials; energy and water use during production, the ability to recycle and reuse materials, and social responsibility. Steelcase has created its fourth generation of CeramicSteel writing surfaces, e³, which delivers the properties of its best selling writing surface, P³ CeramicSteel, and complies with the Cradle to Cradle certification criteria. Steelcase will continue to follow standards set forth by MBDC Cradle to Cradle certification to reaffirm our commitment to sustainability. For over five decades, millions of boards have been produced around the world using P³ CeramicSteel. Steelcase used this cross section of consumers to gather the information that helped determine what the next generation of writing surfaces should provide. Our internationally renowned R&D team worked with experts in the field of ceramics and technology to create e³ environmental CeramicSteel surface – the new industry standard for superior quality.

The e³ environmental CeramicSteel Advantage
The ceramic finish consists of a specially formulated glass substance applied by machine. The e³ environmental CeramicSteel surface is fused to steel at a temperature of approximately 1500 degrees Fahrenheit for markerboards. It registers at a minimum of five (5) on the revised Mohs hardness scale.

- Benefits of e³**
- Ultra-smooth writing surface
 - Improved erasability
 - Greater color contrast
 - Significantly less surface/ light distortion
 - Optimum eye comfort
 - Enhanced visibility
 - Reduced chalk pressure, greater adherence
 - Increased chalk/surface contrast
 - Accepts magnets

- Environmental Features**
- Enamel fused to cold-rolled enameling-grade steel
 - In all coatings, the total amount of heavy metals cadmium, mercury, hexavalent chromium, and lead is less than 0.1%
 - All coatings are free of arsenic and antimony
 - No Volatile Organic Compounds (VOCs)
 - Steel core is made from minimum 30% post-consumer and post-industrial waste
 - e³ environmental ceramic-steel surface is 99% recyclable

e³ environmental CeramicSteel is produced by a controlled, continuous coil-coating process. The surface consists of a steel core of .013" and .019" thickness covered on both sides with thin enamel coatings. The ceramic finish is fused to the steel at a temperature of approximately 1500°F for markerboard and 1250°F for chalkboard.

Characteristic	e ³ environmental CeramicSteel Markerboard
Writeability	Can be written on with any dry-erase, semi-permanent, water-soluble, permanent marker, pen, or crayon without damaging the surface.
Visibility	Contrast/waviness for markerboards (light and dark effects) shall be no greater than 15 when tested with BYK - Gardner Wave Scan 5+ measurement device showing visual acuity (contrast sensitivity) to the human eye at distances greater than 3 meters (10' - 0"). Resolution (visual acuity) shall be based on 3 lines per degree and be visibly maintained beyond the current standard of 3 meters.
Erasability	Dry-erase marker ink can be wiped off easily with a dry cloth or standard eraser. Crayon, semi-permanent, and permanent marker pen inks can be removed with a solvent based cleaner.
Cleanability (Washability)	All residues that remain after normal erasing can be removed by following the care and cleaning instructions on page 667.
Wearability	Vitrified glass-hard ceramic surface fused to light-gauge enameling grade steel at approximately +1500°F. High resistance to impact damage, abrasion, scratching, and color fading. The e ³ environmental CeramicSteel surface registers a 6.5 on the revised Mohs hardness scale.
Magnet Capability	The e ³ environmental CeramicSteel surfaces are ideal for all magnets and magnetic impregnated materials and will not be scratched or damaged from the contact.
Flame Resistance	The e ³ surface is 100% non-combustible.

Exponents Mobile Display Boards *continued*

Material Description

e³ environmental CeramicSteel Low-Gloss Markerboard

*All markerboard erasability tests were conducted using High-Gloss e³ environmental CeramicSteel surfaces.

The ultra-smooth finish enables dry markers to glide easily across the e³ environmental CeramicSteel surface with minimal friction. The surface smoothness allows more dry-erase ink to be removed, improving erasability and eliminating "ghost writing".

Writeability

Provides the same writing characteristics as high-gloss.

Erasability

Low-gloss surfaces will not erase as thoroughly as high-gloss surfaces. When this occurs, a water-dampened cloth will be required to erase the surface.

Surface distortion (orange peel) has been reduced significantly in direct comparison with the competition's surface.

Cleanability

After normal erasing of low-gloss surfaces, solvents may be used to remove harder-to-erase dry marker inks and residue from other pens. Always clear water rinse after using any cleaning agent on the surface.

The e³ environmental CeramicSteel surface maximizes the performance of reflected light and reduces surface glare, resulting in improved visibility under a wide range of lighting conditions.

The back panel is removable to access the wiring and cabling of the mediaboard display for initial setup. There are slots in the inner frame, which is available in two powder coat paint finishes to match the base and handle, that engage with the hooks from the back panel. Lift to disengage the hooks from the slots in the frame. Two people are recommended to remove and install the back panel.

Two 4" swivel locking casters and two 4" fixed casters allow the mobile displays to move easily. White casters default to the milk paint specification and black casters default to the black paint specification.

The 2 1/8"H base is metal with plastic bumpers on each end. It is available in two powder coat paint finishes and matches the handle and inner frame paint finish.

The bumper on each end is plastic that complements the base powder coat paint.

The base is reinforced at the corners and includes counterweights.

The handles are located on each side for easy movement. The handles double as storage for dry erase markers and eraser. The handles are available in two powder coat paint finishes to match the base and inner frame. The opening of the handle is 5 3/4"H x 2 3/4"W. The interior dimension is 1 1/2"D x 10"H x 3 1/2"W.

Outer frame trim, located on both sides, is standard in painted MDF and optional in wood veneer to complement any environment.

Inner frame is available in two powder coat paint finishes to match the base and handle.

A shelf can be ordered for items like laptops or miscellaneous items that are used with the mediaboard unit. It is available in two powder coat paint finishes. The storage space on the shelf is 9 13/16"D x 15"W. The shelf thickness is 3/16" and can be placed anywhere along the opening of the well. Rubber bumpers are placed on the lip of the shelf to keep it in place and prevent damage to the panel and edge band.

Specials are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Power, Data, Wiring, and Cabling

Mediaboard well cutout at the front is 4"H x 39 1/2"W. The inside dimensions of the well are 4"D x 8 1/2"H x 41 1/4"W.

Mediaboard well houses the power and display module and is centered in the bottom.

Mobile mediaboard display is standard with a power and display module that is offered in two choices; five white waterproof simplex power outlets, one VGA jack, and one audio jack with monitor connector cables or five white waterproof simplex power outlets, one HDMI jack, and one blank cover with monitor connector cable. The faceplate is in black gloss paint. The power and display module is centered in the bottom of the well.

The monitor for the mobile mediaboard display will be routed to plug into the power module in the well. The remaining simplex outlets are used to power up to four mobile devices, including laptops and iPads.

Exponents Mobile Display Boards

The corded plug on the power and display module is a 15-amp plug with a circuit breaker on the end. The cord has approximately nine feet of extension from the grommet exit point.

The grommet for the plug to exit in order to power up the mediaboard unit is standard on one side and is available in black plastic.

The grommet and the base plastic bumper has a groove to tuck the cord when the outlet is in the floor underneath the unit or when multiple units are placed next to each other in creating space division.

Tip: The mobile display units do not have a leveling mechanism, coupled with the floors not being even, in most cases it does not allow for a tight fit when put in a row to create space division. Recommendation is to leave a purposeful gap between the units.

No larger than 46" monitors should be used on the mobile mediaboard displays. Monitors more than 55 pounds should also not be used.

Monitor mount bracket is standard on the mobile mediaboard display unit. It is installed in the field.

Tip: Monitors must be purchased separately.

In order to install the monitor mount bracket, the back panel must be removed. Use the provided bolts and install to the desired mounting hole position on any mobile mediaboard unit. The front panel also has cutouts to route the wires from the monitor for a clean aesthetic.

Monitor brackets that are assembled to the monitor have three height settings with 3" of adjustment range at 1½" increments.

While media:scape can host many types of displays, media:scape has been optimized to support commercial grade LED backlit monitors. For other display feature requirements, please refer to the media:scape section in the Steelcase Meeting Spaces Specification Guide.

When using a 40" or 42" monitor that is not recommended by Steelcase, utilize the included hardware kit for mounting which provides all necessary cables and hardware to be used. Monitors should be multi-sync, with a horizontal frequency range of 31–80 kHz, a vertical frequency of 55–80 kHz, and detachable C13/C14 cords.

Questions? Please contact us at 888-783-3522 or send us an email at LineOne@steelcase.com.

Surface Materials

Inner frame, handle, and base (same finish):

- Black matte paint
- Milk gloss paint

Outer frame trim:

- Painted MDF
- Wood veneer

Front and back panel:

- e³ CeramicSteel (magnetic) with milk gloss painted aluminum extrusion

Shelf (mediaboards only):

- Black matte paint
- Milk gloss paint

Casters (non-specifiable):

- White plastic (default when milk paint is specified)
- Black plastic (default when black paint is specified)

Base bumpers

(non-specifiable):

- Complementing plastic to base paint

Mediaboard grommet only (non-specifiable):

- Black plastic

Power/display module on mediaboards only (non-specifiable):

- Black gloss only with white waterproof receptacles (inside trough)

Wood is a natural material, slight variations occur in veneer texture, color, grain configuration and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products. Due to natural variations in wood, finished products may vary from samples in color, texture and grain.

Tip: You should know that finishes may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made for exact match.

Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. The variation is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

Stain-to-Match is available on this product and allows the matching of any wood finish with a one-time charge per finish.

► See *Coalesse Surface Materials Reference Guide* for details.

The painted medium density fiberboard (MDF) is utilizing molding grade MDF, therefore, the 45 lb density is consistent throughout the entire thickness of the board. This allows for a smooth edge when painted. Three coats of water reducible finish is applied to the board in milk or black. The painted MDF has durability and care properties like a wood veneer, thus, must be treated as such.

All paints are powder coated. Refer to the individual product specifying pages for availability. Powder coat finishes are shown in the *Coalesse Surface Materials Reference Guide*.

Exponents Mobile Display Boards *continued*

Care & Maintenance

Veneers and painted MDF should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish veneers, use silicone-free household polishers. Use sparingly.

Tip: Never use ammonia-based cleaners or wax on wood or painted MDF surfaces.

Painted finishes should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleaner, such as Formula 409.

All products should be inspected and maintained regularly by inspecting casters and glides for damage and inspecting all moving parts, i.e., suspensions, for damage and wear.

Cleaning Wood Surfaces
Keep a supply of soft, clean, absorbent cloths handy for wiping up spills and regular dusting.

To dust, wipe with a slightly damp, soft cloth, using another soft cloth to dry. Always wipe the surface in the direction of the woodgrain. Use a quality cleaner or flax soap formulated especially for use on wood surfaces. Do not use oils or ammonia. Dilute the cleaner as directed by the manufacturer. Dampen but do not saturate a soft cloth with the diluted cleaning solution. Wipe the surface in the direction of the woodgrain to remove dirt and fingerprints. Wipe the surface clean with a soft, dry cloth.

Cleaning CeramicSteel Markerboard Surface

- Cleaning/daily care and maintenance applies to both a³ CeramicSteel and e³ CeramicSteel.
- Wipe board with a clean cloth moistened by a liquid markerboard cleaner or a solution of 50% water and 50% isopropyl alcohol.
- Rinse with clear water.
- Wipe dry with a clean cloth. If your board is used daily, the cleaning should be performed at least 2-3 times a week.

More thorough cleaning may be required if writing is left on the board for more than two days.

Markers

Use any high-quality dry erase marker.

CAUTION! The use of Low Odor markers may cause ghosting to occur. If Low Odor markers have been used, the surface can be completely cleaned by following the cleaning instructions above. Remember to discard eraser if used with Low Odor markers.

Removing Permanent Marker

Option 1:

- Write over the top of the permanent marker ink with a dry-erase marker
- Simply erase

Option 2:

- Moisten a clean, dry cloth with isopropyl alcohol
- Wipe the board in a circular motion to loosen marker residue
- Rinse with clear water
- Dry the board with a clean cloth
- Repeat these steps as necessary

Installer's Instructions for Initial Cleaning at Time of Installation

NOTE: These initial cleaning instructions are shipped with every board.

- For initial cleaning, wipe your board with a clean cloth moistened by a mild, alcohol-based cleaner.
- Rinse with clear water. This step is simple, but very important.
- Wipe dry with a clean cloth.

Mobile Display Board Application

Easily transport the media:scape experience anywhere the mobile mediaboard takes you.

- Optimized for small teams of two to four to collaborate without interruption.
- Plug into a standard three prong outlet to bring power to the monitor and the five power outlets inside the mediaboard well.

Lock and Keying—Exponents	672
Style Number Index	674

Lock and Keying Exponents

All Exponents locking products are standard with factory-installed, keyed-random locks. Consecutive, specific, and random keying are available as field-installed options.

Exceptions: Individual locking drawers are only available with field-installed locks. Overfiles are only available with factory-installed locks.

Locks consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

Two types of locks are available for Exponents—the standard keying system (FR series) and the master keying system (XF series). All the locks in the XF series can be opened with a single master key.

Factory-Installed Keying

Factory-installed locks are always key random (standard) or master key random (option). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). All locks within a unit will be keyed alike.

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific or key consecutive lock cylinders.

► See example at right

Key Random

- FR305
 - FR421
 - FR305
 - or
 - XF1011
 - XF1042
 - XF1011
- XF Master Key

Required to Specify

Master key random	+\$36	Specify with master key random.
--------------------------	--------------	---------------------------------

Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms.

Specify "plug" when specifying furniture, and the product will ship without the lock cylinder.

Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Front-removable lock cylinders must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.

Three keying choices are available for field installation—random (standard), specific, and consecutive. All three are also available with master keying, which means that all locks can be opened with a single master key.

Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific or key consecutive lock cylinders.

Key specific means that you can specify any key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150). This option can be used to key all the furniture units in a workstation or department the same.

Tip: Designate the quantity per key number in your specification.

► See below.

Key consecutive means that you can specify lock numbers in a consecutive order to ensure that no two locks have the same key number until the key sequence repeats. You must select a beginning key number from FR305 to FR454 (Master keying numbers: XF1001 to XF1150).

Example of a typical lock cylinder specification is shown below:

10	LOCK9201FR FR320
5	LOCK9201FR FR350
15	LOCK9201XF XF1100
30	Total
1	877102003SR standard lock tool
1	877102002SR master lock tool
