A modern lounge system by Coalesse is shown in a bright room with large windows. The system includes a large dark grey modular backrest, two light beige modular armchairs, and a light beige ottoman. A small white side table with a glass of water and a smartphone sits next to the armchairs. A potted plant is also visible. The floor is covered with a grey carpet. The text "COALESSE ENSEMBLE LOUNGE SYSTEM" and "Coalesse Design Group" is overlaid on the image.

COALESSE ENSEMBLE LOUNGE SYSTEM

Coalesse Design Group

coalesse®

**Creating the new
gathering place.**

The new life of work is about building relationships. With intuitive performance, infinite design expression and a fluid, modular collection of layered furniture and screens, Coalesse Ensemble Lounge System creates new gathering places that work, beautifully.

Gathering that works.

Intuitive performance is in the details. From refined mechanisms for adjusting posture to proximity to power and screens for privacy, every feature in Coalesse Ensemble has been engineered to support the body simply and effortlessly.

Integrated power modules can be built in to in-line tables and containers, or positioned anywhere along the front of the lounge components.

An ingenious performance back and a deceptively simple pull strap create continuous adjustable postures, ensuring the most optimal, comfortable interactions between furniture and body.

Designed for gathering.

Infinite expression draws from nature. Endless combinations of color, material and organic shapes create oases that naturally bring people together. Design cues from winding rivers and rolling hills inspire landscapes of varied length and height, with rounded silhouettes that turn corners softly and break the typical furniture grid with friendly fluidity.

————— Fabric and finish choices allow color and texture to bring the furniture to life with rich personality.

Gathering your way.
Universal modularity lets all the pieces fit together. Seat, table and planter modules on an easy-to-scale rail system along with companion screens allow for flexible configurations that can grow and change frictionlessly over time. Choose the pieces that fit your needs.

Ensemble applications pair with Coalesse Lagunitas 26" high Work Tables and Lagunitas Personal Tables.

Universal building blocks can be assembled in countless ways and complement many other furniture styles.

Freestanding screens with removable, zippered sleeves allow for easy assembly and disassembly — enabling future reconfigurability and reuse.

Meet the ingredients.
Ensemble means together.
All from one system, you can choose any imaginable set of components, combinations and configurations to bring together gathering places that work, beautifully.

Lounges
Performance, single seat, corner, chaise and two-seat lounge components can mix and match to create endless configurations on an easy-to-scale rail system.

Armrests
Lounges are available with or without arms at the end of runs.

Planters, Tables and Power
1-or 2-insert planters, and square or rectangular in-line tables, can be placed between lounge pieces or at the end of runs with optional power modules.

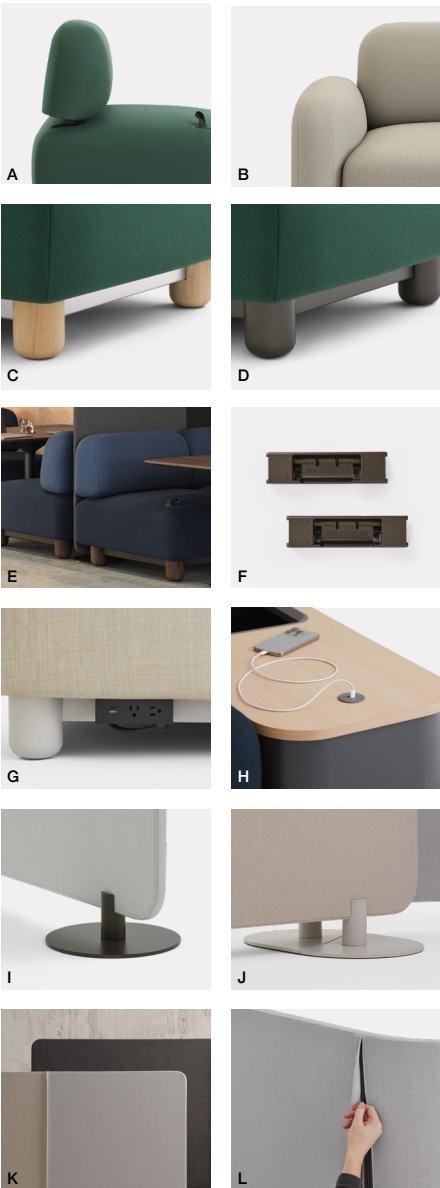

Screens
Available in straight, corner or J shapes, in low, medium and high heights.

Product Features

- A Performance back.** With the pull of the strap, the performance seat can move forward and stop anywhere along the way, up to a 4-inch, 12-degree movement.
- B Upholstered armrest.** Can be specified in end positions only, attached to a lounge component.
- C Wood leg.** Available in solid oak with adjustable glides.
- D Metal leg.** Available in painted finishes with adjustable glides.
- E Lounge contrasting fabrics.** Backs and seats or individual lounge components can match or contrast.
- F Connector kit.** Universal connectors gang together individual lounges, lounge to table, and lounge to planter units on the easy-to-scale rail system.
- G Lounge power.** Positioned anywhere along rail beneath lounge with 1- or 2-PWR + USB-A/C.
- H Table power.** Positioned 7.5" from the edge of the table with 1-PWR + USB-A/C.
- I Screen bases.** Available in painted finishes. Standalone base shown here.
- J Nesting screen base.** Allows any two screens to nest together. Base halves do not attach to one another.
- K Screen contrasting fabrics.** Screen panels can match or contrast.
- L Zipper panels.** Freestanding screens that have zippers allowing for easy assembly and disassembly, enabling future reconfigurability and reuse.
