

Product Compliance Laboratory Confirmation of Product Compliance

5/26/2015

Coalesse Train table products have been designed, engineered, and manufactured, to meet or exceed all applicable ANSI / BIFMA (American National Standards for Office Furnishings) requirements for safety and performance.

Samples representative of current production have been tested and found to be in compliance with the following ANSI / BIFMA Test Requirements:

BIFMA X5.5 Desk / Table Product Tests

In addition to the ANSI / BIFMA standards this product also meets the following flammability requirements.

UL 723 Surface Burning Characteristic of Building Materials^{1,2} – (ASTM E 84 or NFPA 255 test methods)

UL 1286 Standard for Safety of Office Furnishings¹

Flame Spread Index (FSI) less than 200

Smoke Developed Index (SDI) less than 450 (unless labeled “Smoke Developed Index Over 450”)

¹ This specification is not included in the Steelcase Laboratory’s scope of accreditation. These tests are performed by accredited independent laboratories as noted below.

² Where applicable compliance to the UL Standards is evidenced by UL labels affixed to the product.

Steelcase / Coalesse uses its own ISO 9001 registered and ISO 17025 accredited laboratories, and accredited independent laboratories, to verify compliance to the Standards and requirements listed. A list of accredited independent laboratories is available upon request.

Sincerely,

Jeff Musculus – Director, Global Testing, Codes & Approvals

Note:

This document may be reproduced in full only.

Steelcase/Coalesse products are designed and tested for code and standard compliance when installed and used as an integrated product solution in accordance with Steelcase/Coalesse application guidelines and assembly directions. The use of unauthorized non-Steelcase/Coalesse components, parts, or materials with integrated Steelcase/Coalesse product solutions VOIDS all Steelcase/Coalesse claims of product compliance to BIFMA, UL, CSA, LEED, and / or any office furniture safety or performance standards, including all building, fire, and electrical codes. This exclusion includes but is not limited to the use of non-Steelcase/Coalesse panel supported work surfaces, leg supports, panels, brackets, shelves, overhead bins, and other integral components. The use of non-Steelcase/Coalesse components in an integrated product solution not designed, tested, or supported, by Steelcase/Coalesse is an unauthorized modification of the original product which voids all Steelcase/Coalesse warranties, expressed or implied.
