

BIX LOUNGE COLLECTION
Metro Design Group

coalesse®

Defining space.
Bringing privacy and convenience to the office in a dining booth setting.

———— Bix Lounge System introduced the idea of booth-based meetings. High back screens create a space within a space – without architectural walls. The Bix Bench features open storage below and an optional service tray on top – the perfect spot to set coffee or your device. Add a Bix Podium to create an informal presentation space.

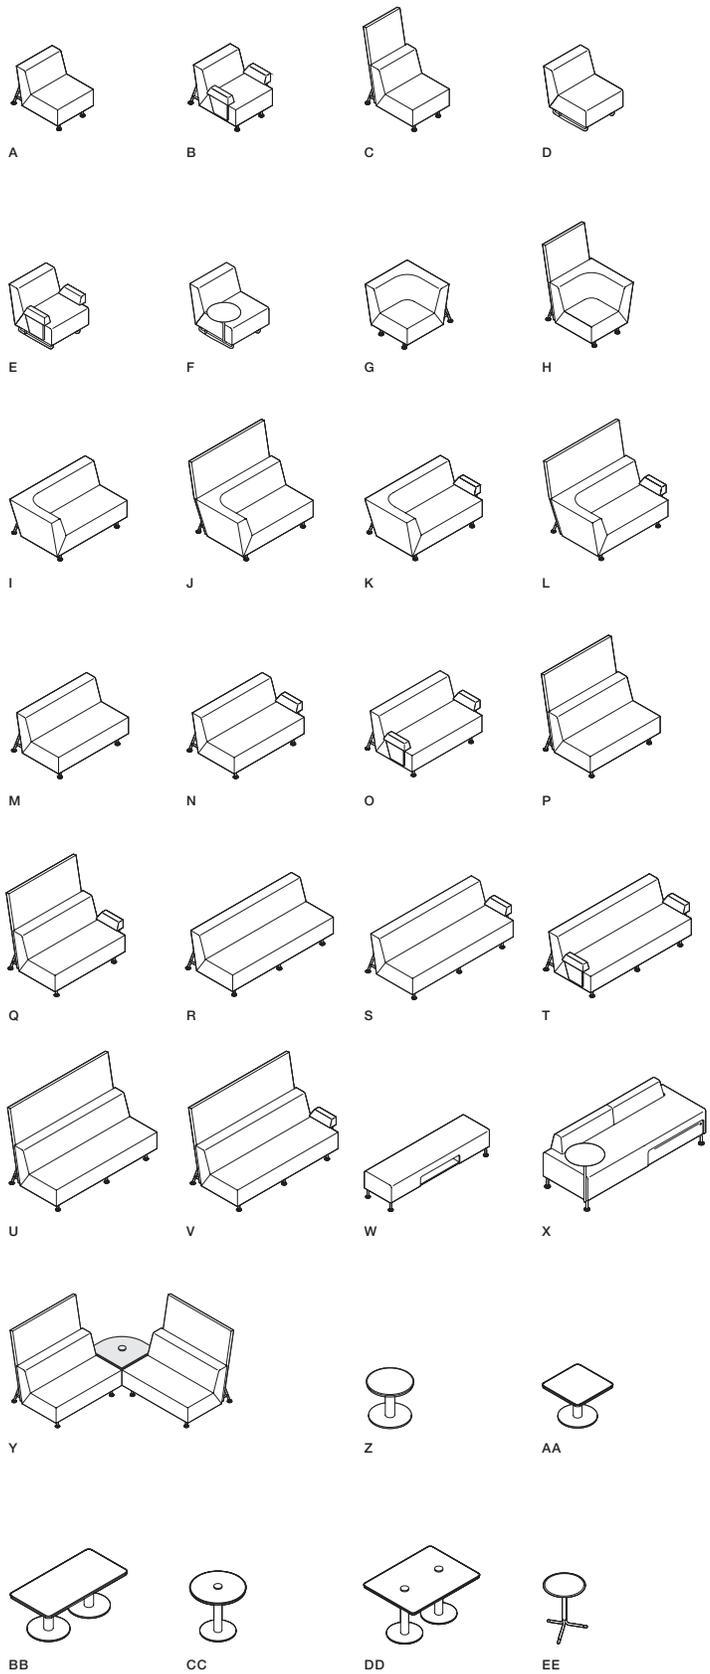

———— The Bix Sled Lounge with optional tablet and upholstered arms stands alone for casual, small workspaces.

———— The lightweight Bix Side Table is a portable work surface that complements any lounge seating.

Product Features

- A. Leg/back screen detail
- B. Upholstered arm detail
- C. Power/data/voice module
- D. Power base with cord routing through column
