

LAST MINUTE

Patricia Urquiola, Spain

coalesse®

Clean and Elegant.
Optimal for cafe and dining areas, last minute is an elegant stool available in two heights.

———— Last minute, so named because designer Patricia Urquiola believes bar visitors don't sit at the bar very long. True in some cases, but looking at the design, they are comfortable enough to let you stay all night. They are elegant stools made of flexing steel to offer surprising comfort.

———— Available in café and dining heights, the last minute stool collection is made of flexing steel and trivalent chrome.
