

SISTEMA LOUNGE SYSTEM BY COALESSE

Lievore Altherr Molina for Viccarbe

coalesse®

Seating with soul.

With the comfort and character of bespoke furniture, yet all of the accessibility and efficiency of a pre-existing system, Sistema by Coalesse embodies the soul of the new work seating: a place where anything is possible; a style to fall in love with.

Lean into lounge comfort.

Sculpted and deep. Clean-lined and welcoming. Mediterranean-inspired profiles and a finely engineered reclining posture bring the easy mood and residential-style comfort of softer seating to the workplace — especially, the type of inviting spaces that nomadic workers prefer to sink into for collaboration, connection and rejuvenation during the day.

Personalize each individual component of the modular lounge system.

Build endless configurations with fully-upholstered, metal leg or wood leg base lounge components, three backrest heights or backless benches, and upholstered or wood arms.

Bringing new life to work.

It's become synonymous with having human-centered aspects of warmth and beauty in the workplace.

— Create backless benches or seating compositions with varying back heights.

— Add in-line tables and power to leg base lounge configurations.

One system. Infinite style.

Sistema is an innovative modular system of fully mixable arms, backrest heights, base options and accessories in the spirit of the modern sofa. With Sistema, build anything from a classic, high-backed sofa to a sleek bench, a social sectional in any length to a quiet niche for one or two.

Leg Base Lounge

Two-seat and three-seat modular components with cylinder or scissor legs can be used on their own or ganged infinitely together. Components can be placed facing either direction and are repositionable. Customize metal legs further with Coalesse Color.

Functionality

Add in-line tables and optional power to leg base lounge configurations.

Upholstered Base Lounge

Build endless configurations with individual, personalized components. Integrated ganging devices keep components aligned.

Arms and Accessories

Add upholstered or wood arms to configurations. Enhance design and function with pillows, a moveable table or arm bolster.

Back Heights

Vary back heights to create unique compositions with varying levels of support and privacy — from backless benches to low, medium or high back lounge components.

Product Features
